The foreword of the need for a textbook on Shalachia Tantra arose from the new C.C.I.M. program for the last years of the BAMS course from this school year. When I was approached by publishers to write the tutorial Shakagya Tantra, I was hesitant initially, because of the big task ahead. But it was at the insistence of my students that I took up this herculean task, which took almost two years to solve. The main features of the book are written in simple and clear language, mainly based on references from Sushruta Samhita and Ashtanga Hrudaya. The word meaning of shlokas along with its translation is the highlight of this book as it facilitates understanding and helps in memorizing shlokas. Numbers and diagrams are added where you need to. - At the end of each section, Cope of Research and Research updates are available to light up young minds in the direction of research. The questions are reviewed at the end of each chapter. - At the end of the book, a short diagram is available for easy revision, showing diseases, lakshan, sadyasadeta, samanya and visheschi. A special mc questionnaire is included at the end of the book to prepare students for competitive exams. The book from its creation to completion would not have been possible without the blessings of Lord Dhanwantari and my parents, Mr. K.K. Sridaran and Ms. Suma Sridar. I am also inept with all my teachers, especially Dr. B.A. Venkatesh and Dr. B.N. Ramesh for their guidance and knowledge of the subject. I am grateful to my friends Dr. Akhali, Dr. Sumitra, Dr. Shobe Rani, Dr. Swarna Gowrie, Sieda Ather Fatima and Dr. Gita Bhat for their continued support during their work. It is worth mentioning the good wishes, support and support of my husband, Dr. K. Srinivas Murthy, and my son Sujit Srinivas. I have all heard thank Me Mr. Atul Gupta, Chaukhambha Orientalia, Varanasi for believing in me and entrusting me with this work.
