Album: Tigers Category: Animals 3 Wallpaper Visit Album Album: Wild Animals Category: Animals 10 Wallpaper Visit album Google has officially taken wraps from Android O, and there are many (and I mean many) new features and improvements to dig through. Most are neat under the hood changes that will make your Android device run smoother and last longer, but there are a few aesthetic changes too. Updated menu settings and notification shadow settings are present in this new update, and of course Google also bundled new stock wallpapers with this release as well! The best Android wallpapers are the best sources for Android wallpaper There's only one new wallpaper in the Android O preview, but as always, more are likely to be added as more developers previews are released. I really like this wallpaper so far, and already have it loaded up on my phone. To download the full 1.7MB image, click on the MediaFire link below to grab the .zip file. Download Android O stock wallpaper (.zip)So who downloads? Tagged: AndroidWallpapers I love Halloween. This is my second favorite holiday just for Christmas, but holds a special place in my heart because I get back-to-back goodness from my birthday and then, 24 hours later, all the goodness Halloween brings. The people at the DualBoot game (creators of other live wallpapers like Celtic Garden HD) have whipped another for us, this time all haunted and spooky, just in time for Halloween. It's called Haunted House HD, and as far as live wallpapers go, despite being sensitive, it's probably one of the most detailed I've come across. From the moment you pop open a live wallpaper selector and choose Haunted House HD, the Halloween vibe will wash over you. The camera pans the spooky house, shrouded in mist as the light flickers on and off intermittently. Jack-o-lanterns guard the doorway and frightening messages appear above the door in blood. Everything is pretty smooth, despite the fact that so much is going on. The door opens and closes on its own, while the camera sweeps back, the lights turn on, showing a silhouette in the window, and the flag on the mailbox moving up and down on its own will. If you want to go inside the house, you'll have to go to a fully loaded menu setting and change the look of the camera. Inside the house is just as (if not more) busy than the former. The light continues to flicker, the fire is pale, ghostly blue, and pictures of the skull are superimposed on the subject's face. The ethereal steps pulse and disappear on the floor, and strange breezes suck the chandelier around. It's a lot to take, but it's still great fun. Back to the settings menu when I said loaded, I meant it. You can choose the kind of camera, set the name for the mailbox and doorway, choose the kind of person you want for the pumpkin, and individually turn on or every variable wallpaper has to offer. If you feel like getting into the festive spirit, Haunted House HD is \$1.99 in the Android Market. We have more photos and download links after the break. We have a bunch of great ways to keep up with the latest from Android Central on your smartphone, tablet or computer - besides visiting a web page in your browser. Here's a look at our available downloads: Android apps We have a trio of apps, each serving a different purpose. The official app for the No.1 Android community on the planet! This is your home for the latest news, reviews, opinions, editorials, podcasts - plus our podcasts, videos, access to our forums, wallpaper gallery and more! More than 100,000 Android fans are installed! Download Google Play! If you're looking for a more dedicated Tapataalk experience for Android Central Forums, this app is for you. Installed by nearly 100,000 AC Forums users, you get access to all of our forums, personal messages and contests. Download Google Play! Google announced its news magazine-style app in December 2011, and Android Central was kindly invited as one of the launch day partners. We've got almost 1 million subscriptions, making us the largest Android site in the library. Sign up now! If you're looking for a quick and easy way to check out the latest headlines for Android Central give our Chrome expansion a shot. With one click you get the news. And another click makes you look at our various news sections. This is a great way to keep up with the latest news from the greatest Android site around. Download it from the Chrome Web Store! Free Android wallpaper Our readers love Android wallpapers - and they love sharing their favorite wallpapers. That's why we created our wallpaper library. Here you can find the coolest wallpapers used by people who actually love wallpaper. New wallpapers are loaded every day! Check out the wallpaper gallery! Android Central Pebble Look Face Are Pebble Smart Watches? Want to trick him with the most look Android mascot around? Now you can. We have our own Lloyd baked in the watch face, ready for immediate loading. Get Android Central Pebble to watch face! Android Central on Google Glass Google Glass now supports IFTTT, which means you can now take notifications over rss feeds. So of course we did it. Click here for our IFTTT recipe to get Android Central Stories directly from Google Glass. We can earn commissions for purchases using our links. Learn more. Animated films allow you to bring to life any story, any concept. Tales and fantasies, romances and revenge, animation allows them all! And though Disney will always be tops in my heart (and in collection), there's more animation than Disney, and they don't deserve to be just because they don't all start with a mouse. Swan Princess has phenomenal music and great characters, but what will always stick out for me is the magic of the film. I want to buy every SFX animator from this movie dinner because every frame is a magic beauty. The radiance of magic is brilliant without blinding, the fluidity of water and magic flowing through it makes it so real you wonder if it can jump off the screen and wind around you. The fact that this swirling magic is the very first thing we see - in front of our characters, before our story - is no accident. Odette, Swan Princess Hear this song and remember ... Soon you will be at home with me sometime on December... Anastasia is different from most princess movies - and no, not just because it's not Disney. Most of the princess's stories are about finding adventure, finding love. Anastasia certainly has her share in both, but at its core is the story of an orphan struggling to find the family she lost to find a place to belong to, and find herself in the past she forgot. Anastasia is long overdue for a comeback, and with the Broadway musical kicking off in just a few months, we'll all be back in St. Petersburg, listening to rumors about The Romanoffs and dreaming of a song someone sings once in December. Anastasia Pagemaster was a film that was easy to ignore, but the heart of the story is the one that makes any nerd who grew up on the books all fuzzy inside: a child overcomes his fear of the world and his fear of the uncertain thanks to the books and the fantastic worlds they take him. In a world where Netflix and YouTube are available to kids before they even learn to read, we need a reminder of the simple magic that comes from being sucked into a book. We need a reminder that when the Internet fails, and when power comes out, each of us can turn to books and follow their fairies into the world of fantasy and fun. What would you imagine BaukjeSpirit Music by Elton John, the ridiculously good chemistry between Kevin Kline and Kenneth Branagh, the superb animation... it's easy to see why the Road to El Dorado found a place in many hearts, even if it was considered the first Dreamworks flop. The bromance of Tulio and Miguel is one for the ages, and one that lends itself quite well to a litany of fan art. This road to El Torado throws the Marvel universe into the mix, giving the manic and almost always grinning hammer to Miguel Thor while the calm, cool, and conniving Tulio occupies Loki's horn. Tulok and Mitor! Mitor and Tuloka! POWERFUL AND POWERFUL GODS! Now Chel just needs to walk in like a black widow... The road to Eldorado mutonfudge Some people say 3-D animation is not as good as attendee animation, and I'm here to jump up and down and scream till I'm in the country remembered that it's not true! 3-D animation can be bright, it can be beautiful. It can be magical! Book of Life is a 3-D animation that used its digital environment with brilliance, giving otherworldly deities a vibration and mystical grace among the toy-like people in our tale. The museum's management tells us that La Muerte is made of sugar candy, but it is wrong: La Muerte is made of kindness and audacity. A dangerous gleam in her red-and-gold eyes when she discovers her husband's betrayal, raw, bright, and it is real. It also delivers an undeniably strong message at the end of the film, which we all have to remind: Anyone can die. These children, they will have the courage to live. La Muerte ba MooreD3'.cta 'Jarge' We can earn commissions for purchases using our links. Learn more. Android was not the first mobile operating system, but until now it remains one with the richest settings. Just think about the fact that Windows Phone has just got the ability to use custom wallpaper, and Android has been not only any wallpaper, but animated live wallpaper for years. Apple's iOS also lacks this cool option. But among the thousands of live wallpapers, you'll find that many of them don't look so good, while others just lag behind. That's why we've selected the top 10 new Android live wallpapers that not only look good, but also live up to the standard fluid performance that won't slow down your phone or tablet. From the exciting, fantastic world of castles and dragons (adapting to the time of day, by the way), to the depths of the oceans and deep space, our selection of 10 great Android wallpapers will make your home screen special. Check them all out right here. SIGN UP FOR OUR NEWSLETTER! RECOMMENDED VIDEO
