Ludia Inc. Android 5.1 - Version: 1.47.2 \$0 Jurassic World: The game is a continuation of the popular urban planning simulator with elements of economic strategy in which you will have the opportunity to return to Nublar Island and try to build a dinosaur park again. At the same time, you will have a huge selection of buildings and structures, as well as more than 150 species of dinosaurs. Game mechanics are presented in the classic style, build buildings, learn technology, breed dinosaurs, explore new territories and try to turn your park into a large and profitable enterprise. Updated at 1.47.2 a.m. This remarkable simulation of the life of prehistoric creatures was based on the sci-fi film Jurassic World. In this toy gamer will once again visit the picturesque island of Nublar, where they will meet face to face with sixty different species of dinosaurs that will enter into a deadly battle in a huge arena. Build an unrivalled amusement park, take part in the cultivation and creation of the latest species of giant lizards and take part in spectacular battles. To grow a team of victorious dinosaurs designed for arena battles, players need to build the biggest high performance of the entertaining dinoparka, giving these insatiable creatures the opportunity to develop normally. Initially, gamers have to download Jurassic World: Game on Android, and then they will get weak and almost useless Triceratops, but do not despair, do not forget to provide it in time to provide his food and soon he will be able to turn into a powerful beast, ready to tear everyone apart. But before that, the creators will show you a local combat system, which is very simple and convenient even for new inexperienced players. You will fight step by step, your task will be the complete destruction of a huge enemy lizard. Presented game duplicates the plot of a fantastic film about the Jurassic period. The fact that dinosaurs about life fought with opponents. The game has fifty species of huge lizards. The user will be able to create his own amusement park and will participate in battles. To grow prehistoric fighters, you need to make the arrangement of the park. There animals will be able to grow and develop. Game Jurassic World™: The user of the game can purchase sets of cards, promising pleasant surprises. They can be found by amazing and previously unknown representatives of dinosaurs. Gamers will take care of their pets as well as improve their genetics. Also here you can scan the dinosaur and send to fight in the arena. You can choose a set of cards in which there will be special prehistoric creatures. The game is regularly given a bonus that can improve the dinosaurs. Management is simple and clear, so that each user can immediately start the process. The player is waiting for an exciting gameplay that does not get bored. In here can get a lot of new experiences and new experiences. Are you fascinated by the prehistoric world with giant dinosaur creatures and various majestic animals?
