The Oxford English English Test Oxford English Test is an affordable, personalized test that suits you. 100% online, it is flexible, fast and available in approved test centers around the world. It is also the only knowledge test certified by the University of Oxford. The Oxford English Test format is a multi-level, general English language test that assesses the ability to effectively understand and communicate in English by reporting on three levels of CEFR: B2, B1 and A2. The test covers all four skills: speaking, listening, reading and writing. The reading and listening modules are computer adaptive, which means that the test regulates the complexity of the questions based on the answers being tested, making the test more motivating, shorter, and giving a more accurate measurement than traditional knowledge tests. Speaking and Writing modules use task randomization, making each test an individual experience. The Use of English section assesses students' knowledge of grammar and vocabulary. The Listening section assesses the overall ability of students to listen. Both sections test how well students understand the meaning of what is being transmitted, which is an excellent indicator of overall language ability. The test is available in British and American English in four different combinations: 100% British English, 100% American English or mix. For complete flexibility, you don't have to choose a combination until you're setting up the test. Section Combination 1 Combination 2 Combination 3 Combination 4 Using english listening to the Oxford Placement test is computer adaptive, which means that the test regulates the complexity of questions based on the student's answers. This makes it more motivating and ensures that it gives a more accurate measurement than traditional placement tests. The answers are automatically marked after each task, which gives you an instant result after the test is completed. The Training Management System (LMS) makes it easier to set up tests. You can: create different placement groups or classes to specify the time or date of the range when the test should be taken by an email sign in detail and passwords for all your test takers, on one go printing a sign in receipts to give students a choice of how long test takers should complete the test (between 50-90 minutes), depending on their ability to receive updates when test takers have completed their tests and look in real time what tests are in the process, have been submitted, or have not yet been run. Set up tests in a few simple steps with a training management system. Students will need a computer with a good Internet and headphones. For more information, please see system requirements. If there is a break in the Internet connection during the test, the system will stop synchronizing the test and will continue when they re-enter the system to resume the test.
