Экшен Экшен Экшен Экшен Экшен Экшен The Survivor: Rusty Forest - Отличный шутер на андроид в которой вы окажетесь на богом забытой земле, в самом начале игры вы очнетесь по среди какого то леса, и у вас в руках окажется только два предмета, это факел и камень, и с помощью их вам потребуется добывать полезные ресурсы что бы выжить. Вв в в защиты, в.)в.п.р.i.i., The wild is a survival game. You-remained on a world destroyed by viruses one of the rest of the surviving survivor. You will be in danger at every turn. It is essential to study the changed world, to find and produce food and raw materials, which will later help develop new weapons, which helps build a refuge. For example, you have to make a tomahak, with which you can cut down trees, get materials ready to build. Animals will have to hunt for food production, and for that we need some kind of weapons. There are no rules, only survival and hunger, which is necessary to constantly satisfy, so that they do not miss themselves. Cold, cruel enemies, brutal clash against radiation, and not only waiting for you! In battle, the winner can be the only one. During the game logical thinking will have to be used, and put the smart network closer to home that no one can get. When one of them works, you will be immediately informed of the enemy's approach. You can't sleep here, because war will not wait for you to sleep and relax! The day is necessary to build and prepare, and to fight at night and provide security. Get as much joy and drive as you can! Additional information is needed android 2.3 and up Developerstorshop Studio, Survivor: The rusted forest is a desi-play based on the survival of the forest. Welcome to the world of living survivor where unknown virus has made the world's population the most dead. The game still exists without translation into English. The application was created by Russian developers, but has not decided to translate salafia languages into language until now, and leave in international English. The graphic component sits on a high enough level, to be in a huge open world. After the game play starts, we find us going through the woods on a highway, on the mini map we are different pistol animals that surround the character. A virtual joy is controlled using stick. The main character is given with many basic features: life, power, hunger. Radiation is a zone, once there, the character starts losing a column of health. Initially, you will be armed with a stone that you can throw or apply to point attacks. There is enough cobblestoneas to kill a small animal for lunch. Predators have added a torch to fascinate developers, plus the night-by-night route al-Manati. Where a bag on the back will put the ingredients you found, diet, animal hair and the food. Notebooks have recipes and things and the number of parts required to create. When you collect everything, it's possible to create useful things. If you want to survive in difficult situations, the application is best for you. How to install the living: Rusted First1. Download apk file and cash. 2. Allow applications to be installed in settings from unknown sources (once done) 3. Run the installation using file manager (usually downloaded files are kept in the download folder) 4. Copy the cash folder from the archives downloaded in SD/Android/obb/directory on your phone using file manager. The result will be SD/android/obb/cache\_folder/file \* obb 5. Run Appalakatoonratang: (1 votes, 5.00/5) Survivors: The rusted forest is one of the very popular android games and thousands of people want to get on their phones or tablets without paying any.
