This thesis partnership has taken more or more summary angles for this work, and any complex central idea, attempted to develop a word that can be shared with different backgrounds for the subject, although the genomex is more or less researched 'Complexity Thinking' is a topic in both 'hard' science as currently social sciences and hemenities, and has always been a problem for professionals, this concept was important in achieving such a comprehensive angle. However, to prevent that complexity will be made by the limitations caused by the intransidate, it will be clear to many that these aspects of complexity will be clear that it is necessary, and stand out with respect for the complexities of the specification. Thethe argues that the concept of 'pattern' applies to these words that form. Especially the opinion pattern has been given a lot of attention, because this concept is important for many complex topics. However, although the pattern is used in many areas of the meaning or clearly, they are a bit methodological (and philosophical) of what they are capable of doing and what they can do. As a result, these issues have been given a lot of attention, and they relate to concepts such as 'information', 'order' and complexity. From these investigations, the original words were developed, including methodological means to use the words stored. It has taken the form of a re-development of a so-called Pattern Library, which has exceeded the limits of discipline, from technology areas, through biology, psychology and social sciences, on a topic that is common to the hemenities. This journey across the division of c.p. ice 'two cultures' is a test for a longoa democrataki, as well as how delicate, and balanced such a path should be effective, especially if someone intends to maintain something On the way. Finally, the procedure has been implemented in a very practical way, for the current development which is strictly dependent on research in the genomex, which is the trans-human movement. In line with this awareness, there is much debate about the 'green marketing opportunity' as a means of hitting this bandwagon. We need to find a sustainable marketing that is actually Green purposes, not green. Marketers have realized in pure trading terms that many strategies and approaches need to be abandoned but that are unstable. True Green Marketing is another excuse for making a brand look good where everything should go beyond the advertising model; We need a green marketing that does well. Green Marketing Provides a Road Measure About Effectively Managing Increased Green Marketing, which offers a practical and intelligent approach.
