The designer's size scheme sets the standard size. Your measurements are taken to determine the nearest size. The dress you order will not be custom made for your exact measurements, so changes will be needed to make the bespoke dress fit. It is extremely important that you order the size to fit the largest part of your body. If you are between sizes, the designer recommends ordering a larger size and having the dress changed down. For more information on measurement, please visit our measurement guide. Don't measure over clothes. Measure with underwear similar to the ones you will wear with your dress. Measuring tapes should be placed around the bust, waist and hips and should not be pulled too tight or too much slack. Measuring the bust of the measure through the back and the full part of the bust (not under the bust). Measuring the waist measure by the narrowest part of the natural waist. Bend to one side to find a natural waist. Measure the hip joint Standing with the legs together, measure in the full part of the hip. Length/Hollow hem designers make their dresses with standard hollow hem measurement based on dress size (see size charts for details). This standard measurement varies depending on the Designer's recommend considering an extra length if you are taller than 5'8, including heel height. The extra length is usually 1 by a few inches longer and will vary between designers. Availability and fees depend on each designer. Choosing the size on each product page, there is a link to each designer's size chart. Compare your bust, waist and hip measurements to the size of the chart. It is extremely important that you order the size to fit the largest part of your body. If you are between sizes, the designer recommends ordering a larger size and having the dress changed down. Your measurements are taken to determine the nearest size and changes will be needed for a custom fit dress. Non-standard size options are listed on each product page along with the accompanying additional fees. Examples of non-standard options include an additional length for customers 5'8 or higher, including heel height, extra fees for sizes 18, small (P) or women (W), and hollow hem. Please review the applicable product page for more information. Look timeless and classic. And always enter something modern, but still completely you. Jose Diaz studied at the Fashion Institute of Technology in his hometown of New York City. He began to design evening clothes, and then continued to design wedding dresses. After 36 years, he continues to thrive in the industry. Jose has always been inspired by his idea of beauty and things found in nature. He loves the beauty of what I see in art, architecture and all forms of design. Jasmine Bridal develops three product lines specifically for our mother groom and bride clients, focusing on the most flattering fit, fabrics and styles for our gorgeous mother bride consumers. Examples of non-standard options include an additional length for customers 5'8 or higher, including heel height, extra fees for sizes 18, small (P) or women (W), and hollow hem. Please review the applicable product page for more information. Please make sure that whoever takes your measurements read the instructions below or the measurements may be incorrect. Thank you! Remember that it's easier to cut a dress than trying to lose that last inch, especially with all the goodies at parties and showers! We Are We You have a professional tailor who will modify/fit your dress to take your measurements for you. DON'T TRY TO TAKE YOUR OWN MEASUREMENTS - THEY WILL BE WRONG! Use a vinyl tape-measure; The fabric ones tend to stretch over time and your dress will be ordered too small. When you measure, wearing shoes with heel height is similar to what you plan to wear on your wedding day/party, and without a bra or bustier. If you measure without shoes, then please add the height of your shoe in height and hollow hem (Hollow on the floor). Our production team may not need all these measurements, but it's good to have them all in case. Aside from brides and bridesmaids who are on the lookout for dresses for the wedding day, the mother of brides/grooms are also an important part of the wedding that needs what the perfect dress the mother bride wears on the day of the special wedding. It can be quite difficult to find a mother bride dress that really suits the mother of the bride and will make her feel beautiful. The fit, shape, and type of bride mother dress is important to the mother of the brides/Grooms. It can be hard to find a plus size mother-of-the-bride dress that is made well and looks good on the mother of the bride/groom. The mother of the bride/groom is an important wedding guest, just like the bridesmaids as well. Choose a plus size mother-of-the-bride dress that fits into the wedding theme. Finding the right plus size mother bride dress that fits all the criteria can be difficult, but Jasmine for the newlyweds has different Mother Bride dress options for the mother of the brides/grooms to shop from.
