## What level does aron evolve in pokemon sapphire

From Bulbapedia, a community-oriented Pokemon encyclopedia. Aron (Japanese: 鉄 第 第Cokodora) is a dual type of Steel/Rock Pokemon introduced in Generation III. It turns into Lairon starting at level 32, which turns into Aggron, starting with level 42. Biology Aron is a quadrupedal Pokemon with four stubby legs and a large round head. Its body is black with plates of gray armor that cover its head, back, and legs. Throughout its body there are small openings in armor. On the head there are six openings, one two openings for its light blue eyes and one opening on both sides of the spires on the back. One, a blunt spike protrudes from the back. Aron feeds on iron ore that it digs out of the mountains. It uses this horde to make your body. Sometimes hunger will drive it to descend from the mountains to eat bridges and rails that make it a pest. This makes a new suit of armor after evolving, but its old discarded armor has been rescued to make iron products. People have been collecting Aron's shed armor since ancient times. With one all-out charge, it can demolish even a heavy dump truck. It lives in the mountains. In anime Major appearances Multiple Aron debuted Hole Lotta Trouble. Ash, May, Max, Brock, and Team Rocket got themselves lost in a cave full of Iron Armor Pokemon. Steven, who also owns one, helped them go through the cave. Game places side games Held items Stats Base stats Pokaton stats Tips Efficiency Learn With Leveling up By TM/TR With breeding With breeding With the transfer of another generation of TCG only moves Move Card Flail Aron (EX Crystal Guardians 44) Side game data Evolution sprite trivia Origin Aron can be based on Bulgasari, a monster that eats iron in Korean legend, and a dinosaur from the family Nodosauridae. As its Pokemon category suggests, its appearance may also be inspired by plate armor. The name of the origin of Aron can be a combination of armor and iron. Cokodora is a 子 by (child) and Codora (Lairon's Japanese name). In other languages Language Name Means japanese 鉄 第Codora No 子 what, dragon. Can also be considered as Little Kodora French Galekid From gallet and kid Spanish Aron Like the English name German Stollunior From Stollen and Junior Italian Aron Like the English name Korean sema gabori No 갑옷 gabot Cantonese Chinese 可 可 拉hóhóhólaai Mandarin-based transliteration its Japanese name Mandarin Chinese 可 可 拉 Kèk Transliteration in its Japanese name More language Russian Арон Aron transcription English name Thai คุ คุ คุ คุ คุKodora transcription Japanese title Related Articles External Links – #303: Mawile #305: Lairon → By Dianaina Zwk Updated September 22, 2017 By Pokemon, which first appeared in Pokemon Ruby, Pokemon Sapphire and Pokemon Emerald. Aron is a steel and stone type Pokemon found in several places over the course of the game. Although Aron seems weak at first, his evolutions create much stronger abilities than the base Pokemon, making him a valuable asset in the long run. Get AronCatch Aron in one of two places, regardless of the game version. In Ruby, Emerald or Sapphire, Aron lives in a granite cave on the floor of One South. Alternatively, Pokemon invites the ground floor of Victory Road home. Select the Bag from the battle menu when Aron is encountered. Go to the Balls section of the bag and select the Big Ball or Ultra Ball depending on the arona level you come across. If it's at a higher level, use ultra ball if you have it. No matter what, each of these balls has a better chance of being successful in catching Aron than the standard Pokeball.Press use the Great Ball or Ultra Ball after it is selected. When A is pressed, the player will throw the ball at the opposing Aron, and Pokemon will be included in the ball. While Aron is inside the ball, tap A and B repeatedly to increase your chances of capturing Pokemon. If the ball makes a click and darker color, you must successfully capture Aron.Return to the Pokemon Center and move Aron in your hand if you do not have free space at the time he was captured. When Aron is on your side, check what attacks it owns and if it should be any use in your current party. Evolve Aron with BattlingLocate Pokemon, which is on the same level as your new Aron, to battle. Aron is the most effective against a normal type of Pokemon like Chancey, found in tall grassy outdoor areas on the map. Enter the long hall. If you walk in the long hall where wild Pokemon live, the image on your screen will blink as you are about to be attacked, and you will find yourself fighting with random Pokemon that are in the area. Choose your moves from Battle Screen using a move that seems most effective against the Pokemon you are targeting. For example, if you are fighting a Normal Type Pokemon, use the attack on the Iron Tail, which causes enormous damage to the opposing Normal Type Pokemon. If Aron has encountered a Fire Type Pokemon and is taught to attack the Water Pulse, then use a neutralizing effect.. Evolve Aron with other techniquesBeat trainers known as the Elite Four, fighting your Pokemon before you try this method. Beating the Elite Four is accomplished through a strong, high-profile Pokemon.Assemble party five Pokemon is capable of defeating the Elite Four a second time. Remember that although every trainer has a special Pokemon set, no Pokemon will be effective against everyone. Get Experience Share to give Aron. You can get this from Mr. Stone's top floor Devon Co Building.Give the Aron Experience Share to hold while you're fighting Elite Four coaches. It will receive a huge increase in experience points from each battle that is completed. Let Aaron develop. Once it has gained enough experience to be level 36, it will become Lairon and then at level 46, it will develop into Aggron. This will complete the evolutionary cycle of Aron. Set goals as you plan to use Aron in your hand. Aron develops level 32 into Lairon, and again 42 levels into Aggron. Both of these evolutions are much stronger than the standard Aron, however with each evolution Aron will become progressively stronger but slower in battle. Use Aaron in battles to gain experience from the battles you won. It will develop itself at levels 32 and 42. This is the simplest method to see Aron develop to develop
