Cookies help us provide our services. Using our services, you agree to use cookies. Find out more about the economic, environmental and social characteristics, we want our customers to get a new BASF experience - for example, in our creation centers. In these spaces full of inspiration and cutting-edge technology, customers can discover the high performance of BASF plastics, explore potential applications and work hand in hand with BASF experts to create new products. This accelerates the process of transforming conceptual ideas into creative solutions. The photo shows our Creation Center in Shanghai, China, which we opened in August 2019. It's one of four of its kind in the world. 2018: 60,220 million euros in 2018: 6,281 million euros in 2018: 5,974 million euros BASF Group 2019 at first sight 2019 was not only the year of transition for BASF, as we expected, but also proved to be a very difficult year due to market conditions. Read the letter Selected Topics at First Sight Key Data Statement Earnings Results Segments Regional Results Regional Results Segment Outlook 9,532 million euros 11,466 million euros 8,399 million euros 13 142 million euros 6,075 million euros 7,814 million cookies help us deliver our services. Using our services, you agree to use cookies. Find out more OK As part of the Helping Hands campaign, BASF is involved in combating the spread of coronavirus with multiple actions and contributions. For example, BASF donates hand sanitizer to medical facilities in many countries. The cover shows the Sokalan and Uvilul factory in Ludwigshafen, Germany. Since mid-April, about 100 metric tons of hand sanitizer have been produced there per week - in addition to the actual production of UV shock absorbers, as well as additives for various applications such as detergents, detergents and industrial formulations. Sanitizer is not usually part of the BASF product portfolio. Thus, in order to cope with the pandemic of the corona, plants in Ludwigshafen and other places were transformed in a very short time. 2,350 million euro 2,874 million euros (2,098 million euros) 4,328 million euros 1,582 million euros 2,819 million euros Pandemic coronavirus is now posing serious problems for many people as well as for companies. Only together can we succeed in overcoming this crisis. The health of our employees and ensuring our customers are best placed to do so. As part of the Helping Hands campaign, BASF is involved in combating the spread of coronavirus with multiple actions and contributions. More Cookies will help us provide our services. Using our services, you agree to use cookies. Find out more OK Control Station on factory products on the Site Ludwigshafen in Germany, where all the information pertaining to the plant comes together. Using numerous screens, chemical technician and asset assistant asset manager and control very complex chemical processes. The intermediate product plant consists of 16 plant sections and produces a wide portfolio of approximately 50 intermediate products such as amines or diols. BASF customers need these products for use, including coatings for the automotive industry, pharmaceuticals or crop protection products. 1,791 million euro 2,143 million euros 1 819 million euros 3 099 million euros 1555 million euros 1766 million euros New service for our customers on the way to greater climate protection: with our own digital application we will be able to provide CO2 traces for all our products in the future. The carbon footprint product covers all greenhouse gas emissions until the BASF product leaves the factory gates , from purchased raw materials to energy use in production processes. By the end of 2021, we want to calculate the data for the entire portfolio of about 45,000 products of sales. More on the financial report for the first half of 2020, we have summarized our publications since 1999.
