If you really want the best that Marrakech has to offer, you have to take to the streets and we are ready to take you on a popular hike to help you discover Marrakech, which we all know and love. We will visit some of the most famous sights you can visit from all over the world, up close and personal: Koutoubia Mosque and Jemaa el-Fna Square, Souks and Medina, and everything in between. We will take the time to really see, enjoy, appreciate and photograph the best that Marrakech has to offer as we walk through the medieval streets of the medina and along some of the city's oldest and most famous streets. The tour through the medina is a stress-free tour that reveals the narrow streets and passages in absolutely safe hands. Our hike is a non-shopping tour, purely educational. Our tour guide services focus mainly on the cultural aspect and do not engage in any shopping market. This private hike entthin is a great way to discover the old medina. It provides a complete insight into the history and meaning of the places you visit. The history of the places will be explained to you in detail. The tour is enriched with great tips on where to eat the local food and how to move in and out of the old Marrakech Medina. We strive to provide you with a highly qualified tour guide who will answer all your questions about the history of the city, the cultural background and much more. Marrakech hike will give you the true feeling of true merikesh that average tourists do not see. Discovering the real Marrakech is no easy task. You need a local expert to take you to the old medina of Marrakech, where everything is surprisingly different. The people, the smells and the negotiations that come with every purchase. The fresh mint and the healing and the labyrinth of the old town. Each area within the old town has its own character. The challenge you will face is how to get into the really hidden Marrakech. At Marrakech By Locals we make sure you discover these hidden places. We run two versions of the same Walking Tour 1- A Highly Highly Walking Tour for families and friends who want to be in privacy and don't want to share their guide with someone else 2- A Small Group Walking Tour for travelers who prefer the camaraderie of like-minded hikers. Marrakech Very personal tour We offer personal Marakesh tours if you do not want to share your tour guide with someone else or if you are a small family who wants to be in privacy. You have the overall focus of your travel guide. You can make as many stupid queries as you need. Your private guide, like numerous pictures of you, can pose in front of Marrakech main squares as you wish. And you don't have to discover the appointment location, your personal tour guide will meet you directly at your hotel or riad. They are in control. The tour is flexible, carefree and adaptable. The speed can be as fast or slow as you like, and it is always possible to stop in a cafe or pharmacy for tissues, or let your guide take a detour to satisfy an unexpected thirst or food craving. Marrakech Small group tour We also organize a small group hike, which is a great way to meet fellow travellers and make new friends. Guests come from all over the world, and this means that many different perspectives are reflected in the questions asked and contribute to more enriching experiences for our guests. We prefer to take small groups (between 4 and 10 people), which is a clear advantage as the whole experience is more personal. Some of the spots covered in this tour: Jemaa el-Fna Square (show area acrobats, snake charmers, storytellers...) Mellah (Jewish Quarter)Medina (labyrinthine alleys of the Old Town)KasbahSouks (market place, craftsmen...) Koutoubia Mosque (Place of Worship for Muslims)Bahia Palace (Old Palace to have an idea about Moroccan architecture) walks ensures that the world can't slip past you faster than you can actually digest, with guided tours in Marrakech is a good strategy to immerse yourself in the cultural and typical history of an area. The most popular way to travel in Marrakech is on foot, because cars and buses cannot drive through the most interesting parts of this city. There are backstreets full of exotic things to browse, the labyrinth of the medina, the square Jemaa el-Fna and many other things to enjoy. In the derbs (small streets) of the medina you have the opportunity to see hidden treasures of Marikesh such as public bakeries, the communal baths or hammams along with some of the most architecturally beautiful buildings in Morocco, in short in this tour Marrakech will experience the everyday life of the locals of Marrakech. I hate brag, but... No, just a joke. I love bragging. Read these testimonies. We organized our tour with Saeed for our first day in Marrakesh a few days in advance to get an introduction to City and we were so happy that we did it! Saeed was very friendly, informative and helpful. He took us on a very personal tour of the entire medina (old town) of Marrakech and gave us a lot of information about the history of the city and the daily life. What we really appreciated is that he took us to local places that would be almost impossible to find as tourists, such as a local bakery, and markets in the souks, where they still have craftsmen who make new objects, while most stalls consist only of middlemen selling products from other producers. As promised, Saeed did not try to sell us anything or advertise, he only had honest local advice and that is something you really come to appreciate in hectic Marrakech. I would recommend this tour to anyone who visits Marrakech and would not hesitate to contact him the next time I visit for another tour! mikey-bLondon-United Kingdom mikey-bLondon-United Kingdom
