Page 2 Direct Drive, a high-speed, sewing system with automatic thread trimmerDDL-9000C series Commitment to seam quality is ready to enter a new era with JUKI's next generation sewing system. The changes are due to digitization. Until recently, sewing machines were adjusted by human ope rators based on personal guesswork and experience. Semi-dry head, Direct Drive, 1-needle lockstitch Sewing System with automatic filament trimmer (bird nest prevention type)DDL-9000C-FMS/PBN DDL-9000C/PBN adjustment of the machine used for treatment based on personal guesses and experience. The machine comes with a bird's nest prevention that commits to the quality of the seam. Direct drive, high speed, 1-needle, Lockstitch car with automatic trimmer and auto - Lifter Motor DrivenDDL-8000A series series The series supports the established quality of the JUKI seam and is provided by narrowed necessary and simplified functions. This helps to improve performance with the operator with its audio manual. Direct Drive, High-Speed, 1-Needle, Lockstitch Machine with Automatic Thread Trimmer and Auto - Lifter Motor DrivenDDL-8000AP Series DDL-8000A Series supports the established JUKI quality seam and is provided by narrowed down basic and simplified features. This helps to improve performance with the operator with its audio manual. Direct drive, 1-needle, Lockstitch machine with automatic carving TrimmerDDL-7000A series of energy-saving servoore is set in the style of direct drive. A compact-sized control box and a operating panel. Provided as standard with LED lighting. Direct drive, high-speed, 1-needle, Lockstitch Machine with automatic thread trimmer (DRY Oil Pan System)DDL-900B series high-speed lockstitch machine with automatic trimmer thread, which is provided with a new oil protection system. 1-needle, Lockstitch MachineDDL-8700 By carefully studying and modifying sewing mechanisms to achieve low-stretch sewing, the machine reacts flexibly to different types of materials and produces beautiful seams of consistent quality. 1-needle, Lockstitch MachineDDL-8700-7/SC920C/M92 By carefully examining and modifying sewing mechanisms to achieve low-stretched sewing, the machine responds flexibly to different types of materials and produces beautiful stensions of consistent quality. 1-needle, Lockstitch machine with dual capacity HookDDL-5600N-7DDL-5600N Machine is able to make well-stretched, beautifully finished seams, regardless of the type of heavy materials. 1-needle, Lockstitch MachineDDL-5550N-7DDL-5550N Take-up Thread Mechanism, The feeding mechanism, path threads and hook have been further improved to enhance the response to material changes and to ensure consistent quality of the 1-needle, bottom and variable Upper Feed, Lockstitch MachineDLU-5494N-7/IT-100A With its digital control, the machine achieves high quality evading consistency. 1-needle, lower and variable top-feed, Lockstitch MachineDLU-5490N-7DLU-5490N With its lower and variable upper feed mechanism, the machine adapts widely to diversified applications and helps promote the production of upgraded quality products while improving efficiency. Direct drive, high-speed, needle feed, Lockstitch MachineDLN-9010A needle feeding mechanism, which is widely recognized as offering outstanding feed efficiency and effectively preventing uneven feed material, responds to a wide range of applications such as sewing outerwear, runstitching men's shirts, etc. and attaching different parts to clothing makers. Direct Drive, 1-needle, needle-feed, Lockstitch Direct drive system have been accepted. Both the control box and the operating panel are integrated with the head of the machine. The head of the machine has been redesigned to improve the performance of each component. 1-needle, needle-feed, Lockstitch MachineDLN-5410N-7DLN-5410N Machine produces seams with the exact length of the stitch and prevents the slippage of the upper fabric. The machine provides a beautiful quality seam, free from the collection of stitch, even if it is used hard to fertilize the material. High-speed, cylinder-bed, 1-needle, needle-feed Lockstitch machine with large HookDLN-6390-7DLN-6390 cylinder-bed lockstitch machine with thread trimmer designed for hemming the bottom of jeans, casual pants and working shape. Direct drive, 1-needle, bottom-feed, Lockstitch Machine with vertical edge trimmer and automatic thread rimmerDLM-5400NDD-7 with its high-impact knife mechanism, the machine promotes the production of modernized quality products while improving efficiency. 1-needle, Lockstitch machine with vertical edge TrimmerDLM-5400N-7DLM-5200N Knife sharp enough to cut any type of mamaterial. The utility lever in one touch increases the comfort of work. Direct drive, 1-needle, needle-feed, Lockstitch machine with vertical edge trimmer and automatic carving TrimmerDMN-5420NDD-7 With its high-work knife mechanism, the machine helps promote the production of upgraded quality products while improving efficiency. 1-needle, needle-feed, Lockstitch machine with vertical edge TrimmerDMN-5420N-7 Needle-feed type machine. The knife is sharp enough to cut any type of mamaterial. 1-needle, differential feed, Lockstitch MachineDLD-5430N-7DLD-5430N With its highly reliable mechanism of lower differential supply, the machine promotes the production of modernized quality products while improving efficiency. Computer, high-speed, Lockstitch, button sewing system LK-1903BN series management sewing performance and sewing machine with juKI next-generation sewing system. The machine is installed with built-in NFC (Near Field Communication) and communication devices capable of 2nd data transmission. Computer-driven, high-speed, Lockstitch, MachineLK-1903S JUKI Simple series sewing machine LK-1903S was designed to simplify and narrow the capabilities that are essentially needed to produce a JUKI fitted seam quality. Computer-driven, Dry Head, High-Speed, Single, Chainstitch Button Sewing MachineMB-1800A/BR10MB-1800B Machine is capable of independently sewing various forms of sewing, such as U-shaped stitching, X-shaped stitching and th-shaped stitching. The machine has 55 different sewing models as standard. In addition to sewing forms, loop intervals and number of stitches can also be changed on the operation panel. Single, Chainstitch, sewing button (нить-fray-профилактика ON/OFF ON/OFF Mechanism)MB-1377MB-1373 Machine is provided as standard with thread-fray-prevention ON/OFF transition mechanism to help produce beautiful seams with extra durability. The shape of the stitch can be quickly changed between configurations and button configurations. (only for MB-1377) Page 2 Direct Drive, a high-speed, sewing system with automatic thread trimmerDDL-9000C series Commitment to seam quality is ready to enter a new era with JUKI's next generation sewing system. The changes are due to digitization. Until recently, sewing machines were adjusted by human ope rators based on personal guesswork and experience. Semi-dry head, Direct Drive, 1-needle lockstitch Sewing System with automatic filament trimmer (bird nest prevention type)DDL-9000C-FMS/PBN DDL-9000C/PBN digitizes the machine regulation used for treatment based on personal guesses and experiences. The machine comes with a bird's nest prevention that commits to the quality of the seam. Direct drive, high speed, 1-needle, Lockstitch machine with automatic thread trimmer and Auto - Lifter Motor DrivenDDL-8000A series DDL-8000A series supports the established seam juKI quality and is provided with narrowed down basic and simplified features. This helps to improve performance with the operator with its audio manual. Direct Drive, High-Speed, 1-Needle, Lockstitch Machine with Automatic Thread Trimmer and Auto - Lifter Motor DrivenDDL-8000AP Series DDL-8000A Series supports the established JUKI quality seam and is provided by narrowed down basic and simplified features. This helps to improve performance with the operator with its audio manual. Direct drive, 1-needle, Lockstitch machine with automatic carving TrimmerDDL-7000A series of energy-saving servoore is set in the style of direct drive. A compact-sized control box and a operating panel. Provided as standard with LED lighting. Direct drive, high-speed, 1-needle, Lockstitch Machine with automatic thread trimmer (DRY Oil Pan System)DDL-900B series high-speed lockstitch machine with automatic trimmer thread, which is provided with a new oil protection system. 1-needle, Lockstitch MachineDDL-8700 By carefully studying and modifying sewing mechanisms to achieve low-stretch sewing, the machine reacts flexibly to different types of materials and produces beautiful seams of consistent quality. 1-needle, Lockstitch MachineDDL-8700-7/SC920C/M92 By carefully examining and modifying sewing mechanisms to achieve low-stretched sewing, the machine responds flexibly to different types of materials and produces beautiful stensions of consistent quality. 1-needle, Lockstitch machine with dual capacity HookDDL-5600N-7DDL-5600N Machine is able to make well-stretched, beautifully finished seams, regardless of the type of heavy materials. Lokstich Lokstich The take-up thread mechanism, the flow mechanism, the thread paths and the hook were further improved to increase responsiveness to material changes and to provide consistent quality of 1-needle stitch, lower and variable top-feed, Lockstitch MachineDLU-5494N-7/IT-100A With its digital control, the machine achieves high quality shirring with consistency. 1-needle, lower and variable top-feed, Lockstitch MachineDLU-5490N-7DLU-5490N With its lower and variable upper feed mechanism, the machine adapts widely to diversified applications and helps promote the production of upgraded quality products while improving efficiency. Direct drive, high-speed, needle feed, Lockstitch MachineDLN-9010A needle feeding mechanism, which is widely recognized as offering outstanding feed efficiency and effectively preventing uneven feed material, responds to a wide range of applications such as sewing outerwear, runstitching men's shirts, etc. and attaching different parts to clothing makers. Direct drive, 1-needle, needle-feed, Lockstitch MachineDLN-5410NDD-7 Direct Drive System has been adopted. Both the control box and the operating panel are integrated with the head of the machine. The head of the machine has been redesigned to improve the performance of each component. 1-needle, needle-feed, Lockstitch MachineDLN-5410N-7DLN-5410N Machine produces seams with the exact length of the stitch and prevents the slippage of the upper fabric. The machine provides a beautiful quality seam, free from the collection of stitch, even if it is used hard to fertilize the material. High-speed, cylinder-bed, 1-needle, needle-feed Lockstitch machine with large HookDLN-6390-7DLN-6390 cylinder-bed lockstitch machine with thread trimmer designed for hemming the bottom of jeans, casual pants and working shape. Direct drive, 1-needle, bottom-feed, Lockstitch Machine with vertical edge trimmer and automatic thread rimmerDLM-5400NDD-7 with its high-impact knife mechanism, the machine promotes the production of modernized quality products while improving efficiency. 1-needle, Lockstitch machine with vertical edge TrimmerDLM-5400N-7DLM-5200N Knife sharp enough to cut any type of mamaterial. The utility lever in one touch increases the comfort of work. Direct drive, 1-needle, needle-feed, Lockstitch machine with vertical edge trimmer and automatic carving TrimmerDMN-5420NDD-7 With its high-work knife mechanism, the machine helps promote the production of upgraded quality products while improving efficiency. 1-needle, needle-feed, Lockstitch machine with vertical edge TrimmerDMN-5420N-7 Needle-feed type machine. The knife is sharp enough to cut any type of mamaterial. 1-needle, differential feed, Lockstitch MachineDLD-5430N-7DLD-5430N With its highly reliable mechanism of bottom Supply, the machine promotes the production of modernized quality products while increasing the increase in
