In numbers, we are talking about more than 15 years of service and more than 270 million accounts created. Habbo's game system, despite passing time and changing the gaming platform, is identical to the original. Players can create and customize their avatar by choosing from dozens of different faces, skin colors, hair cuts, head accessories, shirts, trousers, shoes, etc. In addition to creating their own avatars, players can also create their own living quarters, choosing from hundreds of furniture and other accessories. Nevertheless, habbo's funniest part is social interaction with other players. You can visit other players' rooms at any time or go to the common rooms where you can dance, drink, play and communicate with others. Habbo is a hybrid between a video game and a social network where players can interact with each other in a very attractive world. And best of all, the graphics of the game, despite their simplicity, still maintain its spectacular appeal.
