In order to make our guides we use content that is freely available. Open content sites like Wikitravel, Wikipedia, and Openstreetmap are some of the best resources for any traveler. Our mission is to make this content relevant to you. So we mix both mash and annotate - and we distill large, matching guidebooks out of it. We like open content. In fact some of us were involved in World66, one of the first open content guidebooks on the Internet. Our guidebooks are pretty much open content there. We currently use content from: Wikipedia, Wikitravel, World66, Open Streetmaps, DMOS and Chefmoz We are big fans of these projects. If you come across any inaccurate information in this guide, we would appreciate it if you would correct it on the website of these projects. December 22, 2017 Version 6.4.0 The latest version of our app has some interesting features. We have a new mapping solution that allows us to get better experience and more accurate information. We've updated our guidebook data to make sure you get the latest recommendations. Finally, we standardized our flow for booking hotels, tours and tickets to attractions on our platform through our partners. Happy travels! I have used this app during my extensive travels in Italy over the past decade. The biggest feature is the ability to use offline once you have mapped out your routes. Automatically saves your visited places that you starred for visiting. I recently went to Italy and the Triposo Italy App was very helpful - from temperature assessment to information and directions at various attractions and restaurants. I would definitely recommend this app. I used Triposo to help plan both of my trips to Italy. It aggregates information about food, housing and attractions from a variety of sources (including app users) and presents it all in an easy-to-use, well-organized way. It's a handy, useful tool that complements guides like Rick Steves, Fodor and Lonely Planet. A website's privacy policy, hitting popular tourist spots, can give you a history lesson or two, but if you want to truly explore a new city, you'll want to find ways to travel as a local. With access to pre-existing, insider information, you can be your own guide in Rome and mingle with those who call Italy home. These 11 apps will take you on a self-guided walk, point out the best works of art, help you navigate public transport, and more. Triposo connects travelers with the best places to visit, eat and shop around the world. Personalize your trip to Italy by choosing your own things to do and places to go. Explore the best destinations and regions such as Florence and Milan, and read the mini guides written by other Triposo users like this about the 6 most amazing cliffside villages in Italy. Trenitalia is Italy's main train operator, providing regional, long-distance, high-speed and international passenger trains. Their app helps you in all aspects of working with the company from buying until the time of arrival. Choose your preferred stations, look for the best fares available and track trains in real time. My Travel section allows you to make changes to your booking, request a refund, or add a trip to your calendar. Rome's bus system can be tricky for tourists to understand, causing many of them to avoid it altogether. But But Rome's Rome covers a much larger city than the metro tourist area, which is why the Probus Rome app is so useful for getting off the beaten track. Identify the nearest bus stops, discover bus time, plan routes and connections, and get real-time updates. Italy Museums Free collects more than 150 museums and art exhibits throughout Italy. Search by location, museum name, exhibit or keyword. The app gives you key information on the ground, including museum address, phone number, hours and entry prices. Then once you're at the museum, the app will tell you the most popular exhibit there so you can head straight to it. Upgrade for \$1.99 to find museums within a certain distance of you and get public transport destinations. Curate a list of your favorite tracks from the app's library, which includes self-guided walking tours from Rick Steves City and country guidebooks, as well as interviews from Rick Steves' public radio program. View PDF maps that complement walking tours. Your geographic playlist can cover the best sites in Italy, as well as travel tips and cultural ideas. Streetart Rome collects more than 300 works of street art in 30 districts and 150 roads. See the murals that are closest to you with a built-in map that attaches nearby works. Click on a work of art to learn more about it, such as the details of the artist or the year it was created. This app offers the perfect opportunity to explore parts of the city you might have otherwise missed and offers a modern view of Rome that many tourists don't see. WC Rome has a simple and simple goal: to help you find public bathrooms in Rome. Not the most exciting part of your holiday, of course, but something travelers of all walks and means will have to deal with at some point. Browse the map to find the public bathroom closest to you and see information such as directions and opening hours. This app includes translation dictionaries for many languages, including Italian. Access to the Anglo-Italian dictionary, as well as Italian definitions and conjugations. Explore forums for more than 2 million questions. Lingolook Italian is a language guide with illustrated flash cards and audio translations. Access to more than 800 words and phrases for travelers, with over 550 clear audio translations from native speakers to help you with pronunciation. Search quickly for travel categories and head to the help section for the menu reader and travel tips. It won't help with your fluency, but it will make sure you don't accidentally order horsemeat when you try some of the less touristy restaurants in Italian Created by Elizabeth Minchiley, writer for magazines such as Bon App'tit and Food and Wine, Eat Italy is a collection of her favorite eateries (including bakeries, specialty shops and wine bars) in Rome, Rome, Milan and Venice. Avoid tourist-heavy restaurants and instead head to the little-known gems frequented by the locals. Search for bars, cafes and restaurants by location or kitchen to dine or order. Browse photos of the restaurant, review the menus in advance and read user reviews. The map and rating features will help you narrow down your options. Somato is likely to be familiar to many travelers because of its global presence, but since its acquisition of Cibando in 2014 it is the most active gourmet community in Italy, so this is by far your best choice to use. We hope this will help you in your great journey. Be sure to check if your phone is equipped for an Italian SIM card and data card before you dive in.
