APKCombo Jogos Aventura SCP - Нарушение сдерживания 1.6.0.4 F2Games 23 де 03 де 2020 (7 meses atr's) SCP Сдерживание Нарушение Android Edition эсте агора dispon'vel EM dispositivos Android! Этот порт не был создан создателями оригинальной rs игры «SCP Containment Breach» Игра содержит-Хорошая графика- Страшная атмосфера-многое NPC: SCP-173 SCP-066 SCP-106 SCP-096 SCP-049 SCP-939 MTF и многое другое! - Все концовки- Полная карта SCP СВ- система инвентаризации-хорошая оптимизация- консоль (читы) и несколько других интересных функцийЭта игра была сделана с UnityЕсли вы нашли ошибку или есть предложения, напишите themin отзывы ниже. Мы постараемся ответить как можно больше отзывов© Содержание этой игры лицензируется в соответствии с Creative Commons Атрибуция-ShareAlike 3.0 licenseLink к оригинальной игре: игра От Undertow GamesAndroid порт мной (Феликс Филлип) Не забудьте проверить мой канал YouTube из :) будет больше обновлений soonHave весело! O que h' de novo v1.6.0-Re-made все концовки-Улучшенные некоторые события-Исправлено большинство ошибок разрешения экрана-Добавлены Моды-Fixed NoClip-Fixed Bugged Двери-Fixed 173 AI Ошибки-Remade SCP-939's AI (Cant видеть сквозь стены / коробки)-SCP-294 теперь работает (требует 50 центов монета, которая может быть найдена в камере 079)-Исправлено других незначительных ошибок Email: felixfilipdev@gmail.com Veja mais SIGA-NOS Как объяснил название, это римейк SCP: Сдерживание Нарушение, но для Android устройств Пожалуйста, обратите внимание, что это не было сделано создателями оригинального SCP сдерживания Нарушение! It was made in unity and is about 35% done V0.7.3 CHANGELOG ---CONTROLS---Fixed some joystick bugs-Extremely Improved controls ---GAMEPLAY---Added Femur Breaker (100% Working)-Improved 173's chamber-Added Corpses and events-New loading screen-Added Items-Improved fog-added Pocket Dimension-Placed missing doors in the Storage Area-Added bleeding System-Improved Intro Gas Death Scene-Improved Intro-Added the Commotion sounds-The background music changes now depending on where the player is (Light Containment Zone, Storage Area)-Improved Tesla Gates ---IMPROVED UI---Changed menu font-Added a Skip button in the Start up scene-added an option to disable flares-added tp commands in the console-Added Inventory-added a Download Newest Version button in the menu ---SCPS---Added SCP-939-Added SCP-789J-Added SCP-500 (can cure SCP-008's effect)-Added SCP-008-Made SCP-914 Functional-Gave SCP-035 Animations-SCP-049 can now loose the player ---BUG FIXES--- Fixed a bug where SCP-049 couldn't kill the player-Fixed a bug where blinking overlapped the controls-Fixed a few other small bugs ***Q&A*** Q : Будет ли окончание? Ответ: Да, все четыре: Сколько обновлений будет? А: Много (пока это почти точно так же, как SCP СВ) В: Будет ли эта Lag a lot when the whole map is implemented? A: No, no, no, no, no, no, no, Culling prevents it from getting lag no matter how big the framerate card will not go down (it should always remain the same) if you have any suggestions or found an error just to publish a comment describing its development StageEarly Access Engine / LanguageUnity Welcome to the home page for the remake of Unity SCP: Deterrence Disruption - work to create the final virtual experience of SCP. Click around to find out more! SCP - Containment Breach is a free survival horror game written in Blitz3D.The events of the game take place in the site of the SCP Foundation, a secret organization dedicated to deterring and researching anomalous artifacts and entities that threaten the normality of the world. You're thrown into the boots of a Class D test subject, one of the Foundation's disposable human guinea pigs. Shortly after receiving your first job, the object is subjected to a massive containment breach, leaving you alone in the dark with escaped faces roaming around the facility. Your goal is to make it alive. You can also search the facility for documents and other evidence to find out what led to the breach, and even try to in your role in correcting the situation. The game's main antagonist is SCP-173, an animazed concrete sculpture that kills all living things in plain sight, moving toward its victims at a rate of several feet in a blink of an eye and flicking his neck with irresistible force and deadly precision. Fortunately, SCP-173 has one key weakness: it is frozen in place as long as someone looks at it. To make things more interesting, SCP - Deterrence Breaking has a flashing mechanic that causes the character to blink regularly (which often has fatal consequences in the vicinity of SCP-173). SCP - Deterrence Breaking Umm Jogo de horror de sobreviv'ncia livre escrito em Blitz3D.Os eventos do jogo ocorrem em um site de conten'о da Funda'о SCP, uma organiza'о secreta dedicada conter e pesquisando artefatos e entidades que a. as botas de um assunto de teste class D, um dos des cartaveis cobayas guanas da fandanio.nao muito tempo depois de reber sua primeira miss'о, unidade sofre uma quebra de conten'о enorme, deixando o sozinho na escurid'о com as entidades escapa. Seu objetivo и torne-lo vivo. Woke tambam pode procurar facilidade de documentos e outras pistas para descobrir o que levou and viola'о, ei at' mesmo tentar fazer sua parte na fixa'о da situa'о. O chief antagonist to Jogo and SCP-173, Uma escultura de Concreto animado kills all living things in sight, moving towards his victims at a rate of several feet in the blink of an eye and grabbing by the neck with irresistible force and deadly precision. Fortunately, SCP-173 has a fundamental weakness: it is frozen in place until someone looks at it. To make things more interesting, SCP - Deterrence Breaking has intermittent mechanics that causes the character to blink regularly (which often has fatal consequences in the vicinity of SCP-173).
