The new design of the more easily wireless N300 Easy Router Setting N301The N301 Wireless N300 Easy Setting router is designed to be installed more easily for the home user. It matches IEEE802.11n, provides wireless speeds of up to 300 Mbps, making it ideal for everyday web activities like email, chat, streaming video, online gaming and more. The N301 can also work as a client router to connect network providers wirelessly or uplink AP to share the Internet on every corner, eliminating the dead point. It's easy to set up in just three simple steps, get a secure wireless network and run in a few minutes. Secure WiFi at the touch of the WPS Compatible button with the WI-FI Protected Installation™ (WPS), N301 features WPS that allows users to almost instantly customize their security by simply clicking the WPS button to automatically create a secure connection. Not only is it faster than the usual security settings, but the more convenient is that you don't need to remember the password. Advanced Wireless Security N301 offers tiered wireless encryption options to prevent unauthorized access and protect important data. 1.64/128bit WEP, WPA-PSK, WPA2-PSK 2. Wireless access control based on the Mac address wireless adapter Wireless WAN N301 can work as a client mode to connect to network providers or uplink AP wireless to share the Internet on every corner, eliminating the dead point. Wireless Router N301 Wireless N300 Easy router settings Page 2Wireless router N301 Wireless N300 Easy router setup How it works How to make wireless magic, start with an internet service and modem then connect the router Linksys. The router transmits a wireless signal that makes it easy to connect devices and smart devices. Parental Control Support is a parental control feature like the IP/MAC filter, you can limit the time to access the Internet and block websites.
