You don't need to print all the Canon CanoScan LIDE 110 Flat Scanner 4507B002, just selected pages. Respect the newspaper. Below you will find previews of the content contained in the subsequent pages of the guide for Canon CanoScan LIDE 110 Flatbed 4507B002. se voc lese deseja visualizar rapidamente a conte'do das p'ginas subseq'entes, voc pode us'-los. Resumos do conte'do Manuais is similar to Informa'es de contato Banco on-line de manuais © 2020 ManualsBase.com. All rights are reserved. 1 Scanner 2 USB Cable 3 Setting UP CD-ROM 4 Guide to Fast Launch (this document) Installation software - DO NOT connect the scanner to your computer before installing the software. When you plug in the scanner, disconnect the USB cable from your computer. When the screen is found Found new equipment, disable the USB cable from the computer and click Cancel. The screen can automatically close when the USB cable is turned off. Stop all running apps before you install. For Windows: Remove the software complete with the Canon scanner before upgrading from Windows Vista to Windows 7, then install the bundled software again. For Macintosh: After an update with Mac OS X v.10.5 or below to Mac OS X v.10.6, install the software complete with a Canon scanner. Log in as an administrator to install the software. Don't switch users during the installation process. 1 Place the CD-ROM in the disk. For Macintosh: Double-click the settings icon. Enter the admin id and password in the authentication dialog field. For Windows XP and Macintosh, skip Step 2 and move on to Step 3. 2 For Windows 7/Windows Vista, when the AutoPlay Dialog Window (No.1) appears, start the settings program and then click Yes or Continue to Act when the User Account Control Dialog (No.2) arrives. 3 If asked, choose your language and residence, then click Next. In some countries, these dialog windows will not appear. 4 Click Easy installation on the main menu (No. 3). 5 Click Set to start installing. Read the License Agreement carefully and then click Yes to continue. For Macintosh, skip Step 6 and move on to step 7. 6 For Windows, read Please allow all masters processes, and then click Next. 7 Follow the instructions on the screen to perform the installation. 8 For users in the U.S., when there is a screen of user registration, follow the instructions on the screen to provide product support. 9 When the screen of the extended survey program appears, confirm it. If you can agree, click Agree. 10 When the installation is complete, follow the instructions on the screen. For Windows: Click Exit. For Macintosh: Click Out. If you tap OK on the Canon Solution Menu EX dialog box, you'll see an EX solution menu. You can choose either the MP Navigator EX, On-Screen Guide, or the online US registration. For Windows: When you start your computer next time, The EX menu will appear automatically. When you restart your computer, do the Preparing scanner operation in advance. If the solution menu only shows the Help and Settings menu, it's not that you're looking at it. Connect the scanner to your computer and wait a while, then turn to the EX menu solution online to help and set up the scanner. For Macintosh: If the Canon EX Solution menu icon is not found in the dock, you can start the Menu EX solution from THE ON-Screen Manual' Menu Solution. To add the Canon Solution EX menu icon to the dock, check out The Solution Menu EX online help. 1 Slide the lock switch at the bottom of the scanner to the unlock mark (Always lock the scanner when it's transported or transported. 2 Connect the scanner to your computer using a USB cable supplied. When the scanner is connected to the USB 1.1 port and this device can run faster or the HI-SPEED USB device is connected to a non-HI-SPEED USB hub message appears, ignore the message. : Double-click the Canon Solution EX menu icon and then tap the MP Navigator EX 4.0 icon on the Start Application menu. For Macintosh: Tap the Canon EX solution menu icon in the dock and then tap the MP Navigator EX icon under the Start Application menu. 3 Click Photos / Documents (Platen). 4 Choose a color photo in the type of document. 5 Tap Scan to start scanning. Do not move the scanner while it is working. I don't see the light directly during the scan. 6 When asked that the scan is complete, click Exit. 7 Click Save to save the images and close MP Navigator EX (No. 1). See the back page instructions for using scanner buttons. NO5-3118-V01 XXXXXXXX ©CANON INC. 2010). Lower Upper Fast Start Guide No. 1 No. 2 No. 3 No. 1
