Mutants: Genetic Gladiatorsmutants-genetic-gladiators.wikia.comGame IntroductionWelcome to the Mutants: Genetic Gladiators (MGG) guide! MGG is a hybrid Facebook breeding and combat game. The gameplay is very similar to Dragon City.In this game, you raise different types of mutants and use them to fight in arenas or against other players. The goal is to become the best PvP or breeder in the game. It's up to you to decide which one you'd like to be. You can also be both. Mutant Genesby HikapoMutant TypesThere are currently six different basic mutant genes. They are: Cyber: The first robot gene you encounter in the game. He is weak against Necro but strong against Necro Saber: Saber is the human gene. Strong against Necro but weak against Cyber. Necro: The zombie gene. Strong against cyber but weak against Saber. Zoomorph: The beast gene. Strong vs mythical, weak against galactic. It is brutal (50% damage) but pathetic (-50% damage) against cyber. This is unlocked after completing Campaign Card 2 after defeating the beast's boss. Galactic: The alien gene. Galactic is strong vs cyber and weak against necro. He's doing brutal damage to cyber. This is unlocked after defeating the boss of Campaign 3. Mythical: This is the last and last gene. Mythical is strong against necro but weak against the sword. This can be unlocked after completing Campaign 4. Mutants Genetic Gladiators Weakness Chart currencies and basic itemsFame: This is your bar of experience. The more glory you get from fighting or finishing basic quests, the faster you level up. When you level up, your combat counter used to enter the campaign mission recharges. Credits: The main currency of the game. You can get them from your compounds that store your mutants on the roof. Gold: The best currency you can get. You can either get them by completing quests, visiting MGG's Facebook page, or buying them with real money. This motto will speed up just about everything for you. Of course, money speaks. Mutosterone: It's got after fighting in battles. If you want to raise a mutant, you'll need 100% mutosterone. You can get them after you finish the battles or you can also buy them with gold. Campaign Passes: This will allow you to fight in campaign mode. You start with 50 points. Each campaign battle takes 10 points. recharges after using some. You can get campaign passes from your friends. Invite more friends for a better chance of having them for free. Mutants: Genetic Gladiator Breeding GuideTo reproduce the different types of mutants, you will have to mix and match all the different mutants you have. I excluded shop only and pvp price mutants. It's kind of like Final Fantasy. You can attack your opponents at every turn. Choosing who will attack first will depend on the speed of the mutant. Most fast mutants usually start attacking first, but they generally have less attack power compared to slower mutants. I think it's all because of preference. Do you like huge damage and slow speed or lower damage, but faster speed? Pick one! You can also choose mutants that are average in both departments. ConclusionThere are! I'll add more things when there are updates! Introduction Basic Generation Genes Mutants Mutants Rare Mutant Breeding Methods Specific Generation Mutants Correct Parents Breeding Star Breeding Upgrades Introduction With so many guides or breeding tools, it's important that you start by one that works with easy-to-access information. This comprehensive mutants: Genetic Gladiators reproduction guide will help you with this. We will pass on the base of the mutants crossing guide, and help you raise all the mutants in the game. This guide is last updated on May 23, 2014. Please feel free to leave comments or questions if you can't replicate any of the recipes or are looking for other mutant breeding formulas. We will organize ourselves by different genes and walk you through the potential MGG crossbreeds and their recipes. Before you start following our complete step-by-step cross-race mutants, please note the following key points on how to reproduce more effectively in the game. 1. All crossbred breeding pairs are extremely biased on luck. There are no tips or tricks for you to get a guaranteed race result. If you don't get a mutant with your first attempt, just keep trying until you get the mutant race you want. 2. The order of the parents in the breeding centre makes no difference to the result. 3. The level of reproductive centre increases the chances on how to raise a rare mutant by 12% per level. So improve B.C. levels early on to increase your chances of breeding a rare mutant. 4. Similar to the chances of reproduction mentioned in Number 1. Correct parental reproductive pairs can cause several mutants as well. So keep trying until you get the hybrid breed you want. 6. PVP/PVE, Zodiac, or legendary mutants cannot be obtained by crossing common or rare mutants. The only way to get legendary is to get these mutants as rewards, slot machine, or shop and then you can elevate elite versions of them. Mutants: Genetic Gladiators Breeding Combinations Basic Generation Genes which can be obtained through the shop. Gene Saber: Warrior Necro Gene: Zombie Cyber Gene: Gene Zoomorph Robot: Gene Galactic Beast: Alien Mythic Gene: Demon Mutants: Second Generation Mutant Genetic Gladiators When you cross-breed the different genes together, you have a chance to get the original mutant or you may end up with completely different mutant races. This Mutants: Genetic Reproduction Gladiator Gladiators contains a list of all crossbreeds when you succeed. To get the rare breeds with more luck, you need to replace the double gene mutants instead of a single gene. For example, you can replace Nordic Nightmare in place of Warrior with either of these breeds and increase your chances of getting rare mutant breeding. Any type of first generation has a chance to get normal breeds or rare breeds. However, you can increase your chances of getting a rare specific if you use this specific rare breeding combo using pure-ranked fir breeds. Pure Double Gene Breeds Combinations We have summarized the breeding list of the pure double gene breed with this list. You can use it to double the reference of your game cross-reproduction preference. Below contains some of the good parents list. Gene Saber: Nordic Nightmare - Warrior - Warrior Necro Gene: Leech Lord - Zombie - Zombie Cyber Gene: Android - Robot - Robot Zoomorph Gene: Kaiju Kitty - Beast - Beast Galactic Gene: Astro Surfer - Alien - Alien Mythic Gene: Pit Lord - Demon - Demon Saber Gene Cross Breeding Combinations Warrior - Warrior - Nordic Nightmare Warrior Zombie - Blade Banshee (Robot) or Say Despot Warrior - Robot - Enforcer or Stealth Bot (Rare) Warrior - Beast - Honey Bunny or Rakshasa (Rare) Warrior - Alien - Martian Marauder (Rare) or Bug Bounty Warrior - Demon - Valkyrie or Gandolphus (Rare) Necro Gene Cross Breed Zombie - Zombie - Leech Lord Zombie - Warrior - Say Despot or Blade Banshee (Rare) Zombie - Robot - Zomborg (Rare) or Dead Bot Zombie - Beast - Undead Dragon (Rare) or Cerberus Zombie - Alien - Ghostmonaut or Tutti Gooley (Rare) Zombie - Demon - Baron Monday or Grim Reapress (Rare) Cyber Gene Combination Cross Robot - Robot - Android Robot - Warrior - Stealth Bot (Rare) Enforcer Robot - Zombie - Dead Bot or Zomborg (Rare) Robot - Beast - Beetle Bot or Reptoid (Rare) Robot - Alien - Colossus or Planet Cleaner (Rare) Robot - Demon - Deus Machine (Rare) or Techno Taoist Zoomorph Gene Cross Breeding Combinations Beast - Beast - Beast - Kaiju Kitty Beast - Warrior - Rakshasa (Rare) or Honey Bunny Beast - Zombie - Cerberus or Undead Dragon (Rare) Beast - Robot - Reptoid (Rare) or Beetle Bot Beast - Alien - Parasite Queen or Xenos (Rare) Beast - Demon - Dracus Nobilis (Rare) or Medusa Galactic Gene Cross Breed Alien - Alien - Alien - Alien - Warrior - Bounty Bug or Martian Marauder (Rare) Alien - Zombie - Tutti Gooley (Rare) or Ghostmonaut Alien - Beast - Xenos (Rare) or Parasite Queen Alien - Robot - Planet Cleaner (Rare) or Alien Colossus - Demon - Nebulon or C'hilg (Rare) Mythical Gene Cross Mutant Breeds Demon - Demon - Pit Lord Demon - Warrior - Gandolphus (Rare) or Valkyrie Demon - Zombie - Grim Reapress (Rare) or Baron Lundi Demon Medusa or Dracus Nobilis (Rare) Demon - Alien - C'hilg (Rare) or Nebulon Demon - Robot - Techno Techno or Deus Machine (Rare) Rare Mutant Breeding Guide The game indicates that you will have a better chance of getting rare mutants if you breed with double gene mutants. This MGG breeding guide will help you reproduce in a rare way. This may mean that you can increase your chances of getting a rare specific genetic combination if you use 1 double with only 1 of the target gene. However, this breeding theory requires more testing. However, below is a list of mutant reproductive combinations for rare mutants, in their specific category of primary genes. This also means that you can enjoy rare crossover if you are looking for the two rare aliens in the same category. For example: If you are new and try to raise both Blade Banshee and Martian Marauder. Your chance is best if you reproduce Nordic Nightmare together - either Tutti Gooley (Rare) or Ghostmonaut. This is because if you breed a double Saber gene with Zombie /Alien combination. By following the correct list of parent combos here, you'll learn how to get rare mutants from the crossover list. We'll show you how to reproduce to make your mutants stronger. To get a bronze mutant, you need 2 mutants at least lv 10 and a bronze star. For a silver mutant, you need 2 mutants at least bronze stars and lv 15. For a golden mutant, you need 2 mutants that are at least silver and lv 20. You can place a gold or silver mutant in the breeding center with an un stary mutant and use a bronze star to get a bronze mutant. Obtaining Ranking Stars You can get stars by the following methods: Bronze Star: Level Up, Mystery Gifts and Magnetic Keys. Silver Star: Shop item as well as elite league rewards. Golden Star: Shop item as well as elite league rewards. Using stars by breeding You can raise higher star ratings by setting up mutants. Here are the methods raise and improve the ranks of the mutant stars.
