It also works as a call blocker for unwanted people, spam and telemarketing. With Truecaller, there will be no more private number calls on your phone. In addition to identifying subscribers, the app can block them. It also does the footwork for you with its massive telemarketing base and spam subscribers in your surroundings. You can browse through the names and numbers, too, and the app will provide you with some information about the phone carrier. It even makes a certain amount of presence detection. Blocks subscribers, the non-in-app ad app is overwhelmingly accurate. This is due to ads, but they are not intrusive. It works on all smartphones controlled by either WiFi or mobile data. Therefore, it is not heavy for resources, takes less than 10MB of your storage space. However, the use of Truecaller does raise privacy issues. When permission to access the phone book is required, and then numbers are added to its database. Use the app at the price of your own privacy. Truecaller is a reliable, effective and accurate app. While it does bring up privacy concerns for some people, it also adds ease for your smartphone smartphone However, if you are unsure whether your information is there, remember that you may not be on the list from that service. Download this great app now to keep your phone free from unwanted calls and with people who matter. ContentNameTruecallerPackagecom.truecallerPublisherTrue Scandinavia Software ABCategoryCommunicationVersion1.29.7 (Last)Size5MMOD FeaturesGold Member UnlockedRequiresAndrosAndroid 5.1Truecaller is one of the application applications by True Software Scandinavia AB. With many powerful and unique features, Truecaller becomes the first choice of users when it comes to apps that can provide caller ID and block unwanted calls. Currently, this app is trusted by more than 500 million users and has more than 12 million positive reviews in Google Play. If you are looking for an app that supports communication needs, you should not miss Truecaller.Free calling friends there are many apps like Message, Snapchat, WhatsApp that allow users to connect for free with people around. And Truecaller too, but this app only limits the scope of conversation with people in contacts. Thanks to this feature, users will not bother unknown people and focus on important people. Truecaller also automatically distinguishes between anonymous messages so as not to influence important messages. In addition, this app also automatically blocks spam messages or promotional messages, remote marketing. From now on, users won't have a headache when they see that their message box is full of unsolicited messages, and spend a lot of time cleaning them up. And you also easily block those you don't want to contact by blocking by name and subscription number. With this app, users will never worry about being bothered by unwanted calls. Truecaller also has a community of users that always updates spam ID lists based on community contributions made by millions of users around the world. So you can be sure of what Truecaller offers, it is perfectly safe and effective for your work. Record the callIf it's a better app that allows users to see the caller's ID, it's impossible not to mention Truecaller. No matter who it is, what number it calls, Truecaller can provide a caller ID very quickly. This is extremely useful for users who may know who is calling them, avoid confusing important calls in spam calls. In addition, users can also view names or anonymous numbers in the call history so they don't miss a single call. There are many important phone calls that you have to remember the content or you just want to keep calling with people you love as a souvenir. The Truecaller call recording feature will meet this requirement and easily store call content in your mobile memory. In addition, the app has many useful features such as you can text and share your current location on the map, it will help people find each other faster. Use lots of emoticons and dozens of multi-themed stickers to make the conversation interesting and lively. Truecaller Ensures that user data always have better security, easily back up the history of calls, contacts, messages and backup them on Google Drive.Premium and Gold MembershipTruecaller also offers two premium packages including Premium and Gold Membership to meet needs and offer the best features to users. With C Premium, in addition to using the basic features for free, you can also see the details of who is browsing your profile and can additionally view other profiles in secret. Compared to the free version, this version of Premium allows users to use unlimited recording and at the same time communicate with people without worrying about advertising. In addition, once your account has been updated, you will receive a premium card on your profile. As for the gold membership, users can use the features included in The Premium, as well as get a gold card in the file. ID cards with a gold card are also supported with high priority. Do you use 2 SIM technologies? Don't worry, because Truecaller can be conveniently used on both SIM cards with a feature that supports 2 SIM.
