Lionel polar express ho

More News Lionel is extremely excited to offer for the first time, polar express™ on the scale of HO. Pattern after the iconic Polar Express™ Train on the history of a warming heart, according to Chris Van Applesburgh's story about the power of faith. The Polar Express locomotive™ equipped with our LionChief® and Lionel RailSounds®. In addition, this locomotive allows you to choose between three modes of operation, which gives you the flexibility to run your locomotive using a LionChief remote control, transformer or your DCC system. The locomotive™ polar express, 6-58018, also have directional headlight and backup lighting. Add to the fun of playing Polar Express™ with our range of passenger cars. Running your train has never been easier! Lionel is very happy to offer for the first time a HO scale locomotive equipped with our lionChief® remote system. The LionChief® system is designed to make the operation of your train as easy as possible, without wires, without programs, no problems, just a lot of fun running on your train. Patterned after the iconic locomotive from the film's warming heart and book, this locomotive is decorated in the classic livery of The Polar Express™. With a child-friendly look and feel, this loco has features and technology even older models will enjoy! Add to the fun of playing Polar Express™ with our range of Polar Express cars™ Express. About this pointThon this information is not suitable for ages 3 years. It contains one or more of the following marble items; small ball; or small details. We strive to show you accurate product information. Manufacturers, suppliers and other what you see here and we haven't tested it. Lionel returns to the HO stage in a big way with new sets and a track designed for started in this amazing hobby easier than ever. Bring the Magic Polar Express to your home this year with the Polar Express HO model train set with remote and Bluetooth capabilities from Lionel. This set of HO trains includes everything you need to get started, including a locomotive, carriages, track, remote control and power supply. The electric locomotive can be controlled using Remote, LionChief App, DCC or DC Transformer. LionChief Bluetooth App allows you to monitor full operation and sounds directly from your Bluetooth-enabled smartphone or tablet and control multiple locomotives from a single device. MagneLock FasTrack System has a fantastic prototype look, is easy to use and has magnets in the road surface for quickly equipping connections. Ho gauge trains are 1/87th on a scale and twice the size of traditional O gauge trains. Rails on ho railway track scatter 16.5 mm apart. Ho trains are small enough to build nice planning in an efficient space and large enough to illustrate all the great details. HO has become the most popular rail model in the world to date.
