14 September 2015. Grace: Their record label is Starship Entertainment. Fandom name is Monbebe (man + bee + bee). It combines the Man of Monsta X with beeb or baby to create the idea that we are Monsta X babies. It takes a while for it to roll off your tongue, but you get it in the end, haha. If you browse the comments section of any Monsta X blog post on M/V variety show, I guarantee you will read more comments indicated along the lines of Monsta X deserves their first win, and this is because despite debuting in 2015, the boys have not yet won an award at any music show. We as a collective fandom are quite small, and Monsta X underwent a pretty significant change in style in 2016 that caused fandom to shrink (no judgment, you have to follow music tastes) so making a breakthrough on price shows has been extremely difficult. So if you decide to stan Monsta X, or you just end up enjoying their music, I hope you will help us Monbeebes support our precious boys when they finish their current tour and begin new promotions! } ———— ◆ ◆ ◆ ◆ ◆

Dancer: Lead Vocalist/Birthday: June 18, 1992 Zodiac characters: Gemini Height: 181cm (5'11) Weight: 74 kg (163 lbs) Blood Type: O ◆ Personality Avg: He is the calmest and most responsible member; often referred to as the father because of his sweet temperament and his loving way of managing the members. He's a gentle giant. He has always been an avid dancer and fitness enthusiast. He is a bit of an awkward bear around people outside his group and close circle of friends. Fortunately, people still find him very polite and accommodating despite his size and discomfit. ☹ You can often see him comforting other members or letting them abuse him. He puts up with a lot of nonsense, but he's too relaxed to rush. I'm not a very strict leader, but he does not need to be; his members all love him and listen to everything he says. ☺ I literally do not react to anything; nothing phases him, do not jump scares, not his members, does not fire works on stage. ... ◆ appearance | key function: smiley eyes | mouth | face: oval-shaped; heavy facial features; the mouth is a pretty cupid bow, but small. | One of the highest members; have bulky muscles; has wide shoulders, a long torso and buff arms; his legs are extremely muscular Avg. Wonho Avg. Fans have called him mom of the group, Kihyun does most of the lifting and courtesying of the group members; love to baby him Avg. Hyukkiee passive aggressive; there is a lot of feet wrapped in a very small human. Throws shade and no one sees him to pick it up because he turns his house lol; catch him happy laughing at other members accidents. ☺ Not good at controlling his facial expressions; when he is confused or nauseous. ... ◆ shows. The others are very high key with their stupid antics, but with Kihyun it's always really out of the blue and startlingly ridiculous for him lol. Just like. ... bursts into song at random times; catch him rifling in the waiting rooms; as there is nothing Avg. Prou the squally stuff, but becomes difficult when he himself has to act sweet. ◆ Appearance Avg. Key Feature: Cat eyes (and death glare lol) Avg. Face: Heart shaped and small; really sharp nose and jaw line; quite severe monolid and oblique eyes; cut between the lower lip and chin is very deep | pronounced. ... ◆ lips and freckles/very perfect teen Avg. Body: Shortest member; he is literally just small in every way (lost a lot of weight recently and freaked us all out, including Wonho); arms are very delicate looking, but the legs are surprisingly strong Avg. Hyungwon Avg. Full Name: Chae Hyung-won (Avg.) Position: Lead Dancer, Vocalist, Visual/Birthday: January 15, 1994 Zodiac: Characters: Capricorn Height: 181cm (5'11) Weight: 64kg (141 lbs) Blood Type: O ◆ Personality | Love, love Avg. Love sleep and food above all else; so relaxable. ☺ | The quietest member during all different shows or interviews; doesn't really like getting involved in games or competitions; his personality is too apathetic to be all competitive; but he is either hardcore judging his members or looking like the biggest fool of them all. He just throws his long limbs around and does weird dances or poses when he's a loss for something else to do. ☹ Claps like stupid seal when he is happy or entertained, and it is simultaneously fun and endearing; laughing with his whole body Avg. Famous for being a meme; you've probably seen the gif of him sassily slipping his starbucks; it's circulated literally everywhere. He signs a lot, but don't let him fool you, he loves his boys with all his heart; ◆ appearance | Key function: Pouty lips Avg. Face: Small face along with great features; eternally looking tired due to large hanging eyes; large, pouty mouth; resting expression looks | sad due to the combination of pursed lips and narrower eyes... pls give him a chance. ☺ Avg. Body: Highest member; literally a stick, he has the model body; all gangly limbs (a graffe bb); There is not an ounce of fat on his body's body despite the fact that he eats 250 Avg. Jooheon Avg. Vocalist/Birthday: October 6, 1994 Zodiac characters: Weight Height: 177 cm (5'10) Weight: 69kg (143 lbs) Blood Type: O ◆ Personality Avg. Worst: an anomaly; 50% badass rapper and 50% aegyo KING! I literally lives and breathes aegyo; he is a natural at it, something you might not immediately guess if you've just seen his stage persona in action. The extremely sassy and likes to throw around the English slang he has picked up from his personal studies and his flf Jackson over in Got7. Avg. love hip hop and is about as anti-colorist as they come; My African-American friend Joyce likes to joke that there's a little black soul trapped inside this Korean boy. I is very tough, but is secretly too sweet and easily intimidated for its own good; shouts a lot and is really kicked up when frightened or upset | Protective AF of his members and his friends, and he can be very intimidating despite his gentle, sociable personality. Some people also find him in my face first, because of how serious he is in his rap and how tall he is. ◆ appearance Avg. Key Function: Dimples Avg. Face: Round Face; really small eyes (they almost disappear when he smiles); has cheeks with dimples that appear literally every time he moves his mouth; also has a perfect cupid bow, but in profile his upper lip sticks out much more than Shownu's; not really a facial function, but he wears snapbacks 98% of the time | Body: Always retains a certain level of thickness in the thighs; however, total weight/appearance turns leave me believing that he has a mesomorph body type (naturally retains some muscles but loses/gains weight easily). I suggest looking more at his attitude for identification, he wears himself with his shoulders a little chopped and has some sweet bounce to his suit Avg. 1 M Avg. Name: Im Chang-kyun (Avg. Position: Lead Rapper, Vocalist, Maknae/Birthday: (Y.M.D.) 26 January 1996 Zodiac characters: Aquarius Height: 175 cm (5'9) Weight: 65kg (143 lbs) Blood Type: O ◆ Personality | 3rd of fools line (suspect) Avg. He is extremely shy around people he does not know (who is not fans), so he often comes off as cold or abrupt when people first meet him. He's not cool, I promise he's actually a gentleman. He had a hard time finding his place in the group, which is why he still hesitates to make new friends. Literally the poorest thing alive. When he warms up, he is literally the biggest loser on the planet; the boys has zero shame and constantly embarrasses himself (members lose their shit at the time, it's really | One who sees group interactions will be able to pick him out as maknae; definitely part of the evil maebae movement, but his members still tease him and date on him in equal numbers. Usually gets his way if he whines hard enough because his members are hesitating whipped. Avg. Fluent English Speaker; deadass see his face every time he must listen to Minhyuk happy slaughter English, you will die laughing! ◆ Appearance Avg. Key Feature: Man's Nose Avg. Face: Hard to describe, a little common at first glance (he's my bias, not drim); soft features; the nose is very straight and just a little too big for his face (it's charming the men); small mouth; soft eyes that have a downward tilt in the corners | All legs; sensually, he has these long ass, thin legs that he travels all over all the time; definitely healthy, but very soft compared to the rest of his angular or built members; have a small bubble butt; his shoulders are naturally wide, exercising is not really his thing haha Avg. Quick Review | So you have met the members, but now I want to give you a chance to get to know the faces and voices before they start moving all over the place (because they don't sit still I swear). I have three special clips for you to watch, these are all songs of chesny and very gentle songs for Monsta X, but you can somehow familiarize yourself with them a little | ◆ honest left to right: Shownu, Minhyuk, Kihyun, Jooheon, Wonho, 1.M, Hyungwon ◆ Sweetheart Left to Right: Wonho, 1.M, Kihyun, Hyungwon, Minhyuk, Jooheon, Shownu ◆ [Write Love] Jooheon (chunkey pullover, write something), Minhyuk (turtenock), Wonho (barrel jacket), Kihyun (pink hair), 1.M (grey coat) } ———— ◆ ◆ ◆ ◆ ◆

◆ ◆ ◆ ◆ ◆ Music Videos 9 ◆ ◆ ◆ ◆ ◆ Ok, so remember how before I said Monsta X underwent a major change in 2016 musically? Well their concepts really evolved as well. In 2015, they debuted as a hip hop group whose music featured heavy beats and powerful choros. This continues for their comeback 'Rush', and it really solidified their mainy image. In 2016, however, the group took a whole new direction, starting a series of comebacks titled 'The Clan'. The power was still there, but the boys had become a little more in their musical style and their MV's were much more artistic and involved actual stories. Their main theme has always been rebellion and youth and brotherhood against a cruel world, they just became a little less flashy and a little more elegant. Avg. 2015 Avg. Trespass (Rush) (Pref. Ver.) | Hero (B Track) Avg. 2016 Avg. All in All in (Pref. Ver.) | Fixed (B Track) Fighter (Pref. Ver.) | Shine Forever (Newton (Summer Single) Avg. Special Clips Avg. No Mercy begins with 13 trainees fighting for an unknown number of spots in starship upcoming boy group. It's relentless and cruel; but you'll see the boys grow enormously. They weren't always the polished kids they are now, not even CLOSE. Despite being associated with several other trainees, I truly believe that they chose the right members for Monsta X. Quite frankly, this show is not necessary for you to get to know the members, but I know that some people feel the need to see the origin story. YouTube Playlist: No Mercy (Full Eng Subs) Avg. Decksatch, Decksatch is a series of short videos showing the members of Monsta X completing challenges, goofing off, and just being their extra self. This is a very good one to get to know their personalities and relationships between the individual members. Super light hearted and good for a laugh, and each episode is relatively short. It is divided into 3 different seasons; ◆ Decksatch has all 10 Mercy trainees. Filming takes place during the show, it shows us the cheerful side of the boys, so it was released as part of the campaigns for Trespass. ◆ Decksatch Monsta X is now fully formed and consists of the seven members. This season revolves around them receiving several different challenges and popular shows, and there is a lot of screaming involved. ◆ Decksatchx The deadiest send Monsta X to school, uniforms and everything. This season the boys follow through their school day and show them to complete several different challenges and honesty... it's literally just them throwing picture out of the window and making fun of themselves. ◆ Brilliant YouTube Playlist: Decksatch (Full Eng Subs) Avg. Inevitable RIGHT NOW Avg. No plays, so I'm just going to give you the first episode and you should be able to find the rest. Got English subtitled Combo of filming their everyday life (they struggle 250x lol) and occasional challenges or activities. LONG EPISODES; SAVE THIS FOR WHEN YOU HAVE SOME FREE TIME TO WATCH AN EPISODE Episode 1 | Monsta X-Play | You'll need to download the Vlive app to watch this and do some scrolling until you find episode one, but so far it's been season one (complete with subtitles) and season two is in progress right now. Titled X-Ray because it gives you a x-ray vision to look into the lives and personalities of Monsta X. LONG EPISODES; SAVE THIS FOR WHEN YOU HAVE SOME FREE TIME TO WATCH AN EPISODE } ◆ ◆ ◆ ◆ ◆ AND IT BRINGS US TO THE END. Of course, this is not all there is to see about Monsta X, but this is all you need to get to know them. I hope you were able to watch a video or listen to some music, because they are quite talented. Until next time lovels ~ xx Ryan Ryan
