Cheers! With a delay of several hours, we still managed to put together a new modpack release on Android! (With bugs, but there's something to fix in the new update: D). Here's a list of changes to version 1.4.3 Happy Blocks: Remote effect with falling bombs without causing damage. Removed all effects that can be derived from regular bonuses, but: Now in lakibloka can get the effect of a random bonus CUSTOMARY. (Probability of loss x3) The giant bomb is currently exploding, corresponding to its size. Innovation: Kwijk mode according to the standard in the game. (It doesn't work static, (or doesn't work at all: D), but if you first logged into the game, a new one should be created) 2 New start-up scenes. (Easter hunting, Santa Claus, Easter Rabbit, Taisman Taobao). (Yes, it doesn't look much like him, but still) NEW CARTA Ring! (Made Fearless Cuber) SPECIAL FOR BYANG3L: Spanish! Sticky bombs with pulling/pull more. (Sculpture of plasticine and made model itself) NEW CHARACTER: Deadpool! (Did TROLLMAN) - NEW YORK: BombMan! (I did and voiced TROLLMAN) Messages with the name of the music on the menu. Optimization: NOW MODPAC can BE THE WORLD BOMBSquad !!! The label was changed, Replaced them with an elyph. There will be no difference in the game, and the performance will not increase, but better ☺ Bugfixes: Fixed errors in the English translation. Fixed: The shield is not replenished if you take another bonus shield. Fixed: Fixed: On the M41 Walker Bulldog, the flag spawned under the tank, and it was impossible to take it. (But it's not accurate, it's better not to play flag games on this map) Fixed: All cards were available in the race.
