Alternative versions of DeadpoolPublisherMarvel ComicsFirst appearanceThe New Mutants #98 (February 1991)Created by NiciezaRob LiefeldSee alsoDeadpool in other media As a character, Deadpool has appeared in various media, from comics to movies and TV series. Each version of the work usually establishes its own continuity, and sometimes introduces parallel universes, to the point that different differences can be identified in the representation of the character. This article details several versions of Deadpool depicted in works such as Marvel Comics Ultimate universe and What If issues. Age of Apocalypse In the Age of Apocalypse timeline, Deadpool was dubbed Dead Man Wade and reimagined as a bitter, humorless member of Pale Riders of the Apocalypse, having received its faulty healing factor from the Apocalypse Eugenie program. Sent with his team to invade the Wild Land, he tried to unleash chaos at the shrine, but was killed by Nightcrawler, who teleported his body's head and hid it in a crater. [1] It was later revealed that Dead Man Wade resurrected like many of the other alpha mutants. [2] Captain America: Who Won't Fencing the Shield The World War II-era version of Deadpool is introduced to the theme of the one-shot parody Captain America: Who Won't Wield the Shield. Frederick Wheezy Wilson, nephew of President Woodrow Wilson, is a soldier who is experienced by the Nazis to become 'Weapon X'. Despite the nature of the story as a period piece, Wilson punctuates his speech with anachronistic slang from the 1990s. [3] [4] X-Men's '92 In the Secret Wars Battleworld based on the 1990s X-Men animated series, Deadpool is a member of X-Force with Cable, Bishop, Archangel, Psylocke, and Domino's. [5] Weapon X: Days of Future Now In the Deadpool is recruited by Wolverine to be part of a new X-Men team following the death of the former team. He joins in, claiming that Wolverine only wants him as the human witness. This version of Deadpool is corrosive acid of Agent Zero's Anticurative Factor. This version of Deadpool speaks in blank text boxes. [6] Marvel 2099 In the potential future of Marvel 2099, Deadpool is Warda Wilson, the daughter of Wade and Shiklah. She collaborates with a hydra-inspired band Agent Bob and is wanted by police. She has taken an older Wade prisoner and forced her to watch political debates while chained up, angry that she has ruined her life and hopes she can use it to find her mother. Wade reveals that he and Shiklah had a fall after Ellie's death, which led to a battle between the two former lovers in hell. [7] The new Deadpool is also being pursued by a woman wearing a dress that resembles Wade's Zenpool identity from the Axis. The mysterious woman rescues Wade and gives her access to her bike to a Preston hologram. She then fights Warda and is revealed to be a living Ellie, who plans to reclaim the name Deadpool. [8] Wade and Preston enter the old uncanny Avengers hideout for Wade to prepare. Warda and Ellie continue to fight until Warda reveals that she will unleash a demonic monster unless Ellie fails to get Wade to confess where Shiklah is. After Wade and Preston met with Ellie, Wade tells Ellie to look for Shiklah's coffin at Doc Samson's grave as he and Preston then go to Little Italy in 2099 to seek the help of one of the few living heroes in this period of time: Iron Fist. [9] Danny's heroes and iron fists confront Warda at Madison Star Garden, where the Iron Fists defend themselves from the giant monster as Wade tries to prevent his daughters from fighting by promising to tell Warda where Shiklah is. Despite his request, Warda murders Ellie with liquid napalm and takes Wade to the sewer for questioning, where Wade reveals that Ellie's mutant ability is to regenerate everything at once in her teenage body, allowing her to survive the Warda attack. After the defeat of Wade, Preston and Ellie Warda, Wade tells him that he and Shiklah had one relationship in and out of the other, but were always on the path to war that eventually resulted in his death, as on Earth, those who refuse to co-exist cease to exist (with Wade leading the Skrulls to support his point). He introduces Preston to Warda's head so he can help Warda clean up his consciousness and become a better person and tells his daughters that they can both be Deadpool. He later tells Ellie that he now plans to travel the world and get rid of the planet from his old enemies and that Shiklah's resting place is in a shrinking glass coffin at the top of his heart. When he escapes he is captured by the forces of the few surviving human beings that remain. It helps Cable recover Hope Summers from Stryfe, which is later revealed to be within this version of Deadpool's head. After apparently defeating Stryfe, this Deadpool's quickly starts in half and seems to die soon after, his last words being a joke about paying compensation. [11] Marvel Zombies In the first limited series of Marvel Zombies, a zombie version of Deadpool is seen fighting the Silver Surfer. The Zombie Deadpool finally loses its body and appears as a disenchanted head that begins in Marvel Zombies 3. This incarnation of Deadpool, often known as Headpool, entered Marvel's main continuity when it was found and captured by the original Deadpool in Deadpool: Merc with a Mouth. [12] Along with several other alternative versions of Deadpool, Headpool appeared in the Deadpool Corps with a propeller mounted on his head, granting him flight. Attempting to return Headpool to the Marvel Zombies universe, Deadpool encounters several versions of itself as they exist in other universes, including a female version of himself called Lady Deadpool, Major Wade Wilson, a militant but sane version of Deadpool, and The Deadpool Kid (KidPool), a cowboy version of Deadpool that exists within a wild West universe. [14] Deadpool Corps In the 12-number series Deadpool Corps and the Deadpool Corps prequel series, Deadpool joins several alternate versions of itself from different universes to create a supergroup. Lady Deadpool and Headpool return from their previous appearances in Deadpool: Merc with a Mouth, along with newcomers Kidpool, a children's version of Deadpool who attends Professor X's school,[15] and Dogpool, a dog endowed with the Deadpool family healing factor. [16] They later joined The Champion, going by the name Championpool and a squirrel named Squirrelpool. [17] The group was assembled by the Old Man of the Universe known as the Contemplator. He gathered them to stop the powerful cosmic known as the Awerness. The Awerness absorbed whole worlds, devouring the consciences of the people. [18] Ultimate Marvel's final version of Deadpool is Sergeant Wadey Wilson, a Gulf War veteran. Depicted as an anti-mutant extremist, he is a cyborg and leader of the Reavers who hunt mutants for sport on a reality show. Under the mask, Deadpool appears to be a skull with an exposed brain, its skin formed by a transparent shell. It also has the ability to mimic an individual's appearance and voice, though not their powers. [19] Wadey reappears in Deadpool Kills Deadpool (written by Cullen Bunn and released in 2013) as a member of the Evil Deadpool Corps, led by Dreadpool, whose aim was to exterminate alternative versions of Deadpool through multiverse, including deadpool's regular body. In the #4, he is killed by the deadpool. [20] The final version apparently does not have the break the fourth wall as does the main version. Deadpool Pulp Deadpool Pulp is a limited four-number series by writers Mike Benson and Adam Glass and artist Laurence Campbell, with Deadpool set in the 1950s based on pulp fiction (similar to marvel Noir's fictional universe). [21] Hulked-Out Heroes Main article: Hulked Out Heroes First appearing in Hulk #21. Deadpool is hulked-out near the end of the fallout from Hulks' story. A two-part miniseries called Hulks: Hulked Out Heroes followed Hulkpool as he travels back in time to commit suicide, disrupting the origin stories of many heroes as he goes. [22] House of M in the House of M, Wade Wilson was a field commander and active agent of S.H.I.E.L.D. During one of his missions, Agent Wilson contacted S.H.I.E.L.D. They had to patch it up via the TB-Link satellite to communicate with him. [23] Deadpool kills the Marvel universe in the deadpool plot kills the Marvel universe, the X-Men send deadpool to a mental hospital for therapy. The doctor who treats him is actually Psycho-Man in disguise, who tries to torture and brainwash deadpool to become his personal minion. The procedure fails, but leaves Deadpool even more mentally careless, erasing serious voices and screwballing in his head and replacing them with a voice that just wants destruction. Under the influence of Evil Voice, Deadpool develops a more nihilistic worldview and, as a result, after killing Psycho-Man by repeatedly smashing it against a desk, (and after burns in the hospital by using gasoline) begins to murder all the superheroes and super-villas on Earth, starting with the Fantastic Four and even killing the Watchman, in an apparent attempt to rebel against him. The book ends with him entering the real world and confronting the Marvel writers and artists who are writing the book. He tells the reader that once you're done with this universe, I'll find you soon.
