Rusted Warfare is a real-time strategy game, small size, simple picture, but the game is pretty of color, land, sea and air force all fun - APKAward.com Rusted Warfare - RTS Strategy apk is a very good strategy real-time game with pixel sci-fi style and very rich and creative service. There is not only a copy of the battle, but also the freedom to choose a card to participate in a meeting, but also to play against players on an international server. The game has only one kind of resource, that is, funds, no restrictions on the population, begin to capture the mine, and four farmers on. After capturing the mine, the defensive tower is on the front line closest to the enemy. The front defensive tower is cheap and sufficient to deal with most of the enemy; it will then also be used as a defensive tower in other mining areas to prevent persecution. Harassment.
