Sorry for the inconvenience of Goat Simulator basic can not be considered as a game, but it is a lot of fun, all kinds of laughing elements on the map and BUG does not say the mouth can be realized, just tied rocket outs enough bolted players happy for some time. Goat Simulator makes a great head. Creative thinking and strange ways of destruction constantly affect our ideas inherent in us, free our imagination. This has made the choice of the most common mobile platform, controlling virtual buttons and gesture operations, the player dragging the bottom left corner of the screen up and down in a circle to control the movement of the goat, and the size of the resistance can be goat or leisurely walking or disease Run Mad, and in the bottom right corner of the screen the essence of the game, the player presses a button to the goat to make jumps, overheads, use of language and other actions! Goat Simulator gameplay is a very simple destruction, destruction and destruction, whether solid objects or fragile body, as long as you gently one, inevitably turn your head, and the most exaggerated tanker. Just a little contact tanker exploded, and in this game full of freaks and random events, it's okay to do whatever it takes. In addition, the design of the physical engine is also very exaggerated, such as the window flying out of the plate can even make the car explode, super destructive let this game with feeling, but the building is intact and some cars will not be affected or a little disappointed, perhaps it is a mistake! Of course, the points in the game will be based on the destructive ability of the goat, which will not be reset if he suddenly drops, which is relatively humane. In addition to destroying things, the game has also joined the collection of some items, such as some statues of goats will be scattered in every corner of the map to perform collection tasks to achieve the relevant achievements, which also adds more playability to the game. Achievements in the game system is also a major bright spot, many, many hidden elements are waiting for the player to find in the extensive map. The most important point is the errors in the game, mapping problems in the game everywhere, people often get stuck in the wall and often get stuck in the game to use the command to play, but these mistakes vow developers never fix because they think these errors are very funny. Perhaps the game itself, but with a common mistake, but can experience a different exotic experience, it's a miracle! The unbridled Game Goat Simulator is great for stress relief and is good for those grizzled aesthetics, after all, people in the game can be tortured in their opinion and you don't need to take care of yourself hanging out or worrying about who will attack you?
