The seller must complete the assignment part on the back of the title including: Purchase price Buyers information About transfer date Current mileage in the presence of the deputy secretary or notary. The Deputy Secretary or notary shall verify that all the fields have been duly completed, witness the seller's signature and approve the document. After completion, the seller can present the ownership to you to stop the transfer. Before transferring ownership, the transferor and the acquirer shall verify the accuracy of the odometer list and all other information on the certificate of ownership. Any changes or omissions can override your title. The ownership of the vehicle shall remain in the name of the transferor/seller, as is the case on the front of the title, until the title is fully transferred to the name of the transferor/buyer and a new ownership is issued with the name of the new owner. The buyer shall pay sales and user charges on the purchase price of the vehicle. The transfer of ownership must take place within 30 days of the date of sale, otherwise interest will be assessed. Dual ownership requires both parties to be present unless a notarised power of attorney has been submitted. Social security numbers for all parties are required. Copies of the title will not be accepted. If you decide to issue a 45-day temporary label, you must receive it before the vehicle title is transferred to your name. Once the Ohio title is created, it will only be possible to buy permanent Ohio license plates. If you are the lien owner, please indicate the title of the assignment section (click here for the current fee). What do I have to bring to the title office?
