Curation and review Lesson Planet (film) Get your scientists to think critically about climate in this challenging learning exercise where learners have completed 10 analogies using climate terms. They also read paragraphs about the Indian monsoon and answer interpretation questions. Students support claims in favor of or against three statements and refine the concepts they have learned by answering three critical thinking questions at the end. This is intended to be used in the text of Holt Geoscience. Concept Critical Thinking, Analogy, Biome Save time and discover an attractive curriculum for your classroom. Reviewed and evaluated by teachers with trusted qualifications. This is intended to be used in the text of Holt Geoscience. Concept Critical Thinking, Analogy, Biome Save time and discover an attractive curriculum for your classroom. Reviewed and evaluated by teachers with trusted qualifications. Try it for free Critical thinking is more than just a thought process. It includes thinking on the surface as well as at a much deeper foundation level. There is so much information in this world that I don't know what is true and what is not. Therefore, it is important for students to analyze, think effectively, and understand that not everything is black and white.
