Do you want to use the Anti-ban WhatsApp Mod with a bunch of features on your device? If so, it's possible with WhatsApp Plus APK on your Android Smartphone. Actually, the official WhatsApp Plus is no more, because Mark Zuckerberg banned users of MOD apk and even THE WA Team sent out legal notices to the developer. They didn't stop there and they did what we called selfish. According to the creator of the plus version, they banned his Facebook and Instagram accounts. It's crazy isn't it? Anyway, a developer named Rafalense created Plus Version at first glance. Now, there is no project developing them under the WA Tree. But it has a separate application called similar to his previous work. This is Plus Messenger, an instant messaging app that works with Api Telegram. It has much more features than a telegram. Now, here we will give you the best version of the WhatsApp Plus clone because there are so many clones available. This will help you use the latest base according to the official. What is WhatsApp Plus APK? Currently we have the best clone for you that is made by ALEX Mods. One of the interesting things is it's very similar to The YoWhatsApp APK, but not entirely based on it. The famous popular vodo that is specifically designed for users who wanted more features over the official. While many wamods are developed based on YoWA, I still prefer the MiNi version over them. This is my best choice for you if you're not a big fan of more features. I hope you get this. By the way, there are no annoying ads in this WhatsApp Plus. This way you can safely communicate with your favorite ones. Unusual thing; You can use the latest database of the official app, and can also use 4 WA accounts on the same Android device, but with different numbers only using NoWhatsApp for Android. Version Info NameWhatsApp Size32 MB Version8.75 DeveloperAlex Latest updateYul 01, 2020 Based on2.20.157 Download WhatsApp Plus APK The latest version for Android This plus version is not available in the playstore, because it is not the official version of WhatsApp Inc. So here's the way to download WhatsApp Plus APK officially ALEX Mods. In addition, you must remove the previous name of the com.wa package before installing this. Read the features before downloading. Let's jump into the link to download now, you're good to go. Screenshots Features A well optimized version you don't experience any lag when using this app. Alex has done a great job regarding features. Read them one day. Anti-Ban There is no need to worry about banning your account. It is completely forbidden to proof the mod that allows you to use it for free. Impressive, isn't it? Well, you can use this app with any Doubts. So why don't you give it a try? Use 4 WA accounts you will be surprised to hear that if you missed my words in previous previous Okay, again I tell you guys this will allow you to run 4 WA accounts on the same device. But, you have to download WhatsApp Plus APK along with NoWhatsApp from our Download page. So with that, you can log in with 4 different accounts. A much needed feature that has more than 3 accounts. Having 4 WA accounts is a bit of a crazy thing. Not? Topics and settings Are mostly modding apps are popular because of its deep customization and additional theme function. Many people want to look differently every day. It's only for them who make it different from the usual. Several customization features are built in here on this app. You can find them all in the settings. What can you set up a ScreenMain conversation/Chat ScreenPopup NotificationWidgetsMedia Sharing Some more options for the theme/set up Video Player you're bored of using the default video player on WhatsApp? Then there is the solution for you. With this app, you can change the default video player with any other one you like best. My recommendation is to use the Mx Player Pro for the ad-free experience and comes with tons of features. Other mods for player video updates are crucial, aren't they? Without updates, we won't get the best features and security patches. It will be updated in accordance with the official version. Some features will be taken from the GBMods team because it is based on GBWA. The rest of the fashion However, there are so many mods yet to be discussed. Lock - Whatsup Lock with a password. Turn it on to protect your cat data. Always online - Help you stay online when your screen goes away. The Internet back up - back up the data to update the latest version of Whatsapp Plus APK. You can get a full backup as a titanium backup. Turn off voice calls - You won't receive calls when you turn on this option. Anti delete - The sender may not have access to the deletion of their chat message. Instagram Stories - Stories Bar will look like Instagram Stories. and more How to install WhatsApp Plus APK on Android? A few is one of the easiest guides to install on your Android device. There is no hard thing behind the installation process. All you need to just focus on when reading the below steps. Note: Don't remove the official version without backing up. Step 1. Download APK from our website. Step 2. Now, back up your chats from the official WhatsApp (Settings of the Green Button) Step 3. Remove the Playstore Version. Now click on WhatsApp Plus APK to install on the device. It may ask you to include Unknown Sources if you are not allowed to do so. Turn it on to install. Step 4. Finally, you set it correctly. Just open the app and sign up with your phone number. Once you checked with OTP, you got. Step 5. On the next page, you'll be asked to back up your chat. Chat. This is. Hall, Hall! You're done, just open the settings and do whatever you want. Download App stickers and sticker maker for WhatsApp Plus Many sticker apps will be supported in WhatsApp Plus because it has the same package of the official app. However, StickersMix has developed special applications and they are well coded. It has a collection of over 2500 stickers. So you just install and click on the icon in the app to add beautiful stickers to the vaz. Size 58 MB Sticker Maker Plus is an android app that allows us to create our own stickers and has a feature to remove the background of the image. This app is a great addition to WA. Size 5 MB Final Words I haven't found any better features in this WhatsApp Plus APK over FMWhatsApp APK. If you have the time, then I recommended you watch FMWA. You may be surprised after reading its features. Even, we have minimal versions of this kind of mods. If you like Lite Mods, then see GBWhatsApp MiNi and Soula WA Lite. Do you already have any doubts? Comment below to get answers. WhatsApp Telegram Reddit Pinterest Twitter Facebook WhatsApp Plus APK is an anti-ban WhatsApp mod with awesome features. If you are looking for a comprehensive WMOD that offers features to use, WhatsApp Plus should be the preferred option. The popularity of WhatsApp Plus is so great that it was officially WhatsApp WhatsApp Plus until Mark Zuckerberg Maud banned the provision of legal information to APK and WA users and developers. Apparently, they weren't happy with just tipping, so they banned developers from Facebook and Instagram accounts just to show their strength. You may wonder who is this developer who managed to off Zuckerberg and his team? Well, the developer is called Rufflance and for legal and personal reasons WA is not working on related projects. Spending years of this work will not stop Rufflance. Instead of linking your product to WhatsApp TasApp, it's called Plus Messenger, an instant messaging app that works with the Telegram API. What's impressive is that there are many interesting features that users haven't seen in Telegram. Return to the topic: Talk about WhatsApp Plus clone because WhatsApp Plus is no longer available. Our goal in this blog is to provide you with accurate information about the option so that you don't develop the wrong version. What is WhatsApp Plus APK? Today, the best WhatsApp Plus clone is provided by ALX Mods. Aesthetically, it is similar to YoWhatsApp and depends on it. PlusSpace Plus Apk clones are very popular and provide features that are particularly different from normal. If you're looking for advanced features that you wouldn't normally find in the official version, you can WhatsApp Plus APK. Well, there's no doubt that the Yovats app is the backbone of many WOMDS, but there's no doubt that the mini version offers similar features and takes up less space. Most Of the contain annoying ads, but Plus Plus Apk doesn't include annoying ads. So when you write SMS there are no complications or irritations. One aspect I like most about WhatsApp Plus APK is that you can use 4 numbers with different numbers at the same time. What features WhatsApp Plus APK? The great thing about Alex's WhatsApp Plus mode is that it doesn't exist. It is formed on the basis of which you can enjoy all the functions. These include: Anti-ban Do you often fear that your account will be blocked for one reason or another? There is no such problem with WhatsApp Plus because your account is protected from restrictions. Use multiple accounts, as mentioned, you can use 4 WhatsApp accounts in Plus Apps Plus. You will be amazed at how miracles can work from personal and professional life. Normally, you need 2 accounts. However, if you want to run 4 different accounts, you'll find work in this mode. When it's true. To log in to 4 different accounts, you need to download WhatsApp Plus APK from WhatsApp. Now you can use account accounts, accounts and at the same time it is a crazy feature to use. The content and setting of Mods are popular because they can provide comprehensive customization options that are not part of a normal official application. Options for deep egg tuning and the ability to create your own theme - the look of your app gives it extra meaning. Not only will this setting look different to you, but simple features can also be widely used to improve user convenience. Here's a list of things you can set up with PlusSpace Plus: Main/Chat screen Talk screen Widget Population search Media Sharing These options like the life stream of the app's user interface. If you have the freedom to play with them, you can imagine the freedom gained through this app. To access the theme and customization options, go to other options. The standard WhatsApp player is useless. You know that even if you disagree. Well, if I could tell you that you could replace the default video player and install the MX Player by default? It's going to change everything. No? The overall app quality and additional features in the player provide better audio and video quality and make it my favorite video playback app. If you need to spend a few dollars, I recommend the MX Player Pro for a great ad-free experience. To customize the video player's side as the default video playback app, go to more options. make the app great. Everyone wants to see something new, like improved functionality, i-Catcher, and a simpler user interface that makes the app easy to use and addictive. This is the best thing about WAMODS.
