Fill and print guides in electronic format. Access the Electronic Justice Journal. Service to help with the calculation of the bend. Speed up the service by petitioning by pre-registration. Speed up the service by petitioning by pre-registration. Speed up the service by petitioning by pre-registration. See competitions held by TJRJ. Direct access for citizens, participate in judicial public administration. See here addresses and phone numbers of TJRJ. SEE THE COMPLETE LIST OF RAPID ACCESS The portal of the Court of Justice in Rio de Janeiro brings a range of services for citizens, with a view to speeding up consultation and better integrating society with the judiciary. You may consult ongoing cases at first or second instance using your number, by name of the parties or by the OAB of the lawyers. There is also a free system to receive the status of the process via email, just register with basic user data and a password. With this, when one of the specified processes has a move, an email will be sent with the relevant information. Another very important service, especially for lawyers and other lawyers, is the Electronic Justice Journal, which is the official means of publishing the Court's administrative and procedural acts replacing the old printed version. This service represents a major step forward, bringing savings in both material resources and time, because consultation will be much faster and more efficient with electronic tools. The portal also has an important set of case law that allows the lawyer to know how the Court has interpreted and applied the law for each subject, making it possible to provide a better basis for its procedural documents. Any use of a non-judicial nature may be consulted by protocol number or registration of the service:Registration number - Inform the main digits without regard to the prefix. Example: Speak then-and-so, license plate 01/XXXX, type only XXXX. Active Servers - Enter your login and then the password. Discontinued Servers - Enter the registration number in the logon field, and then the password (the same as the access to paycheck). Then inform the first and late years of the search. Process protocol number- Enter the process number, the year of protocol and the number, without taking into account the number of numbers that have been used. Internet www.tjrj.jus.br On the website of the Court of Justice of the State of Rio de Janeiro are available consultations of: - Cases of number 1st Court, 2nd Instance, special courts, civil court, court of criminal jurisdiction, court of criminal executions and Office of Active Debt - Cases named 1st Board of Appeal, special courts, court and court of civil court - case by number of OAB 1st Court, Recursal Council, Special Courts, Court of Justice and Civil Court - Progress of email proceedings Enter our page in the link course of the email case and register. You will be asked for your basic data and the list of cases of interest to you, which may be special court and first or second instance. With this data will be created an account associated with a password, which may have your data changed when necessary. From there, every time at least one of the processes in the informed relationship has a new move will be sent an email to your private email address with the new information. The service is free and open to all interested parties. Self-service terminals in the Central Forum building there are several self-service terminals (spread across corridors) where consultations can be obtained to process progress by number, name or oab. Processes by number It is necessary to have the process number at hand, this number is formed by 14 digits: This is composed of the year (4 digits) in which the process was distributed, the number of the service in which it was distributed (three digits) and 7 digits, referring to the protocol number, recording the process of the distribution time. This hearing will have access to cases from the first instance. 2. Processes by name The query can be performed as long as the spelling of the name is exactly the same as the one that was archived. For example, if the correct spelling is 100, the spelling is not used. It is necessary to know in which district the process was distributed, in which case jurisdiction and years to be sought. Example, such as <a0></a0> or <a1></a1> Case by the oab number It is necessary to know the number of the lawyer's OAB, the state, the jurisdiction to which the process was distributed and the annual interval that is requested to be sought. Consultation of cases according to the name and number of the OAB only provides access to cases of first instance, Recursal Council, court and civil law. Case by the lawyer's name It is necessary to know the lawyer's full name or part of it in order to conduct the hearing. If homonyms or similar names occur, they appear in a list of selections. It is necessary to know in which district the process was distributed, in which case jurisdiction and years to be sought. Example, such as <a0></a0> or <a1></a1> If you have already registered in person, click here or on the image above to operate the electronic process via the service portal. The electronic process, regulated by Law 11.419/2006, was introduced within the judiciary of the State of Rio de Janeiro by Resolution TJ/OE 16/2009. Electronic processing is an initiative that seeks quick access to justice, not to mention the economy with paper and physical space. In order for the operator of the law to act in the electronic process, PJERJ created the ServicePortal. In order to access it, the interested party, whether part of or lawyer in the broad sense, must make direct registration in any of the approved services (Normative Act TJ N. 30, of 12/07/2009) or the electronic registration via the Court's website (Resolution TJ/OE/RJ No 35/2012). This is a functionality that aims to ensure unique identification of the user of the service. Through this portal, the operator can submit petitions, receive subpoenas, view the documents from the processes to which it is linked, among other information. Only electronic petitions will be accepted in PDF format, digitally signed with ICP-Brazil certificate. TJRJ has created a tool to help with this task: Free Signing. The service portal is designed to be used on any computer connected to the Internet, through the browser you want, and will be constantly evolving. Therefore, we count on your understanding and cooperation to inform you of any issues or suggestions via Contact Us, or call The Call Center: (21) 3133-9100 to register your request. Scanning Rooms: - Capital Forum - Av. Erasmo Braga, 115 1. - Barra da Tijuca Regional Forum - enclosed local by the second special civil court Barra da Tijuca; - Campo Grande's regional forum - room between distribution and PROGER on the first floor of the new forum (Annex DESEMBARGADOR ALYRIO CAVALLIERI, Nos. 141-1st floor); - Jacarepaguá Regional Forum - room 301 (6th jacarepaguá civil court) in Jacarepaguá Forum; - Niterói Forum - Av. Viscount of Sepetiba nº 519 6º andar sala 609, telephone 3002-4278 - Secretariat Building; - Forum for Nova Iguaçu - Av. MARIO GUIMARAES 968, Bairro da Luz, Nova Iguaçu - FORUM NOVO, 1. - Forum of Nilópolis - R. PEDRO ALVARES CABRAL 305, Nilópolis, Térreo - next to Elevator (Lawyers' Room). Dear user, For the correct function of this portal in relation to web accessibility intended for users with visual impairment, it is suggested the use of nvda software, version 18.1 minimum. The JAWS software version 18.0 is not fully compatible due to an incompatibility presented with the WAI-ARIA 1.1 standard.
