Opera is a fast and secure browser for your Android device, and includes a new news channel, an integrated ad blocker and a free VPN. ★ features ★ - Blocking ads to view faster: Opera's native ad blocker will help you effectively remove ads and speed up the page download process so you can move more smoothly. Built-in, unlimited and free VPN: Improve your privacy and security with our free integrated VPN. Turn on Opera VPN in private, and your IP address will be replaced with a virtual address to help you avoid inadvertently sharing information about your ID and location. Built-in barcode reader and reader: easy to access built-in CD and barcode readers. Just click on the search bar to make the reader available on the right side. Focus the camera on any QR or barcode to scan it automatically . . . Flow seamlessly connects to all your devices: with The Flow feature, files, links, or images you share appear on all Flow-enabled devices, allowing you to seamlessly switch between your iPhone, Android phone, tablet, and computer. . Based on our sophisticated artificial intelligence (AI) news engine, the new news channel allows you to create a personalized selection of news channels in your browser, subscribe to your favorite topics and save articles for later readings. Night Mode: Night Mode Opera allows you to adjust the brightness of your device so you can comfortably read in low light and reduce visual fatigue. Night mode is easily accessible from the main menu. Password management and self-filling credit card details: If you want, you can automatically save each site's password and automatically and safely fill out payment details for your online purchases. Private view: Use private tabs to view incognito online and don't leave traces on your device. From a tab gallery, you can easily move from private viewing to normal viewing mode and vice versa. - Convenient reading from any screen: Opera browser includes the ability to re-size text, which allows you to adapt pages according to your reading preferences. It is also coordinated with the automatic text-setting feature to optimize reading . . . Easy download management: With a new download manager, the process of downloading files is faster and easier. You can and share all the downloads, remove them from your phone or download the list by swiping the screen sideways. In addition, thanks to the background download feature, you can even download a file and have at the same time another open app . . . Synchronizing devices with Opera: Opera for Android can now be easily synchronized with the Opera browser for your computer. Other opera options: can show ads on Facebook.
