Firion has light brown skin, brown eyes, and white hair tied up in a ponytail and covered by a blue, black and orange bandana. He wears light blue shoulder pads and shiny guards over white robes, a brown belt with a gold buckle, and a red cape. His NES battle sprite is a simple, change to the Warrior battle sprite of the original Final Fantasy, with the field sprite completely identical — this portrayal didn't bring in any other portrayal of the character. Firion's NES battle sprite compared to the Warrior battle spriteFirion carries a cape in prototype screenshots of the WonderSwan Color version of Final Fantasy II, as he did in his artworks by Yoshitaka Amano. His sprite would not have a cape until the release of the PSP version. Firion's PSP battle sprite ~ Firion tries to act heroically and strives to defend his country and the people he cares about most. His Japanese NES profile tells that Firion has a weakness for women, which possibly explains how come he was so easily seduced by the Lamia Queen.Artwork of Firion of Final Fantasy I&#amp;; ~ In the Japanese Final Fantasy ~ Story ~ In the Japanese Final Fantasy II Muma Firion was born in Salamand and was adopted by Mary and Leon's parents in Finen after Firion's birth parents died. They return to Altair shortly afterwards with providedr in their hands. Newly equipped with myth weapons, Firion leads the party to the town of Bafsk to stop the large airship, the Dreadnought, from being completed. The party is too late and the Dreasnought is finished and launching to attack several towns. The party then set out to retrieve the Goddess's Bell needed to open the gates of the Kashuan hold, where the Sunburn, needed to stop the Dreadnought, is located. Joseph helps get the bell by borrowing his snowcraft and defeating the Adamantoise who guards it. After fighting Borghen, Joseph sacrifices himself to save the party from a big rock. After collecting the Sunburn, the party, along with Prince Gordon, captured Scott's brother, Cid's airship, where Hilda and Cid travelled to Kashuan. To explore deep in the cavern Firion, need a White and a Black Mask. After finding these artifacts in Fynn Castle and the far off Tropical Island, respectively, Firion goes to the Mysidia Cave and acquires the Crystal Rod, the key to the Mysidian Tower. After reuniting to Fynn, they discovered a Cyclone summoned by caesarean destroying villages. Firion leads his team into the Cyclones with the help of the newborn wyvern and eventually kills the emperor. A celebration held for the empire's defeat is halted by the announcement that the Dark Knight Leon took the throne after the emperor's defeat. The party enters the castle using the recently deceased Cid's airship and confronts the power-hungry Leon.Amid a confrontation with Leon, the emperor returns from the dead and reveals his plan to destroy the world. Ricard holds off the emperor while Firion, Leon, and the rest of the party escape. Upon arrival in Fynn, Hilda agrees to join Leon at the Rebel Army, telling Firion to keep an eye on him. The last fight takes place in Pandemonium at the end of the Jade Passage. The emperor is dead for the second time and last time, and when the Wild Rose Rebellion continues their cheers from the Rich's defeat, Leon leaves the party because of what he's done with the empire, but Firion tells him that when he's ready to back, he will be happily welcomed. In the Japanese, novel Firion and Mary become a couple, who are weird considering they adopted siblings. But it's left ambiguous in the game.--Gameplay ~ Firion's initial status and equipmentFirion's starting equipment is a Broadsword, a Buckler and Leather Armor. He starts as the most balanced member of the team as his attacks are on par with his magical ability, and his stats are almost perfectly balanced between Guy and Mary, showing statistics that specialize in physical/magical abilities while missing in the other. It's up to the player to decide what kind of warrior Firion becomes. In the battle with the emperor shown in the soul of rebirth cutscene before the final battle (taking place in Dawn of Souls and PSP/iOS remake), Firion is the party member who knows the Ultima game, but as with any game, the player can learn it to whomever they want. His ultimate weapon in the Arcane Labyrtnth is the Ragnarok sword. Most of the most important terms optimal for Firion are not teachable until the player has reached the Cyclones, and the best key terms are available only after the return of Palamecia, making the Ragnarok obtainable only near the end of the game.--Stat LevelHP 30MP 10Strength 10Spirit 10Intelligence 10Stamina 10Agility 10Magic 10 10
