Game name Slither.io Android version 4.4 and higher category Action Reviews 4.5 / 5 Stars Current version v1.6 Latest update size update size Slither.io Mod Apk Specialty And Features Slither.io is widely used for multiplayer iOS, Android and browsers developed by Logitech Studios. Players dominate an incarnation reminiscent of a worm that consumes multicolored pellets from other players and both, who naturally lay eggs on the map in the game to grow in size. The purpose of the game is to grow the worm the longest on the server. The Slither.io 2015 online game resembles Agar.io and resembles a classic arcade game snake. The game grew in popularity after its promotion among several prominent YouTube users, including PewDiePie, and remained at the top of the app store shortly after its release. By July 2016, Alexa ranked Slowo's browser version as one of the 1,000 most visited sites, while the iOS version was initially the most downloaded app in the App Store. A mobile version of the game for Android was released on March 27, 2016. The game's reception was positive, reviewers praised its appearance and optimization, but criticised it for its low playback value and users have to pay higher prices to remove ads. There are 16 default drops, each with a different uniform color and many repeating patterns. When the player joins the server, the colors are randomly selected. Players can showcase their worms using custom skins with unique designs on flags from different countries, as well as topics and colors

that represent famous YouTubers, such as flags from different countries, such as Jacksaptis, Jelly, and Pddpe You can customize. Or the player can make their own skin with a device called Build Sloer, which displays different colors that can be made from incarnation, which can be placed on the carpet with a click. Previously, to open custom skins in browser mode, players had to share games on Twitter or Facebook using an external link found on the website. Until June 2016, the possibility of adding skins to iOS and Android versions was also added. Play against other people online! Can you be the longest slave? If your head touches any other player, you'll explode and the game will end. But if one of you runs in, they'll blow you up, and you can eat their remains! Slither.io s a chance to win, even if you're little. You can swipe in front of a very big player to beat them, no matter how big you are! Load now and start sliding!
