See the source [Share Welcome to FnaF World Simulator Wiki!](#) FNAF World Simulator is the FNAF World fangame from CrashKandicoot. This is (probably) the most informative wiki on it. We are still building wikis. Please keep your useless for later. Feel free to contribute if you want! Welcome back to Animatronic! Freddie finished the game, and got an unfair amount of power. With his new abilities, he will take animatronic and destroy all the enemies left in it. Now it's up to the so-called enemies to stop Freddie before it's too late! Play like over 60 characters in this fan-made FNAF World sequel! Re-clash old friends and enemies in a whole new perspective! Explore huge worlds, look for chips and other equipment! Completely new game modes to play value! ... And more! Trivia Turn on FNAF World where you can play as bad guys in FNAF World Simulator! This fan game has quite a few bugs, but it's still fun, another look at FNAF World! Community content is available under CC-BY-SA unless otherwise stated. Were you looking for Supreme Fredou, Fredous from the first universe that ended? Fredbear is one of the main but also slightly secret-ish characters in FnaF World Simulator. He serves as a guide, telling you how to use the axe and Kirkas. Originally in the world of FnaF, he was a guide, but he was replaced by Redbear. Now he is still in Fazbear Woods, and when interacting, he will remind you how to use the axe and Picax. Bossfight If you bought every byte Shadow Freddie had to offer, he, S. Freddie and Spring Bonnie will appear in Choppy's Forest. S.Freddy says you rely too much on chips and bytes, so 3 of them challenge you to fight, without bites or chips. If you get to defeat them, they will give you a secret byte, pearl, as a reward. Skills He will use only the Mimic Ball and prize ball, but since the skills are pretty strong sometimes, and added to other skills S.Freddy and Spring Bonnie use, he is mostly as a supporter, but the main damage too. Welcome to Freddy Fazbear's Pizza, where all your magical, wonderful dreams come true! Today you start working as a night watchman, and it's your job to keep an eye on the room and make sure that nothing bad happens. The animatronics is a little saucy, so... Oh, wait, it's the wrong game. An offshoot title of the spectacularly successful horror franchise Five Nights at Freddie's, FNAF World is another, more fun to dip into the world of animatronics. Created more or less solo by Scott Cawthon, the video game-making machine, FNAF World gives animatronics the chance to become heroes for change - though they seem to be moments of ill will. Because, you know, it's, animatronic do. SPECIAL FANTASTIC SUPER-HAPPY-FUN NOTE: Guys, I keep seeing complaints that there are there missing or that the step-by-step guide is not clear. I went through it all, step by step, to check for accuracy. Everything you need to know to get through the game, especially the routes through the subunnel, is here. I have to assume that you miss paragraphs and don't read everything I've written. Therefore, I will not answer the questions that are answered simply by reading the step-by-step guide. Stop being lazy. If you can't bother sparing a few minutes to read the text, go check out YouTube or something. Lots of videos out there. SECOND SUPER FUN NOTE: I've taken down the page to update 2 at the moment since a) I don't have time to update it right now, so it's totally accurate and b) I just honestly don't want to play this game anymore. If you need help with FNAF World I suggest consulting either FNAF World Wiki or asking for help on one of the countless fan franchise forums. Main Turn-based Part One: Fazbear Heights Part 2: Woods Choppy Part 3: Dust Fields Part 4: Mysterious Mine Part 5: Liligyar Lake Part 6: Blacktomb Yard and Deep-Metal Mine Part Seven: Pinwheel Circus and Pinwheel Funhouse Part Eight: Key, Locks, and the Final Battle (s) Various Animatronic Set and Move Guide Watch Ending End Map Places Red Chest Location Guide View Source [Share Welcome to FnaF World Simulator Wiki!](#) FNAF World Simulator is the FNAF World fangame from CrashKandicoot.
