Internet Download Manager is actually an Android browser with very basic features that stands out for its download manager. You can choose the folder in which you want to download the file, the name you want to use, etc. You can mostly browse using incognito mode and have different tabs open, although it's not particularly easy to access other tabs. Download the manager is a decent, easy browser, with everything you need to browse easily, while downloading whatever you want. IDM is the fastest and most advanced download manager (with Torrent download support) available on Android. This is up to 500% faster than the usual pause download and resume support. And best of all, it doesn't work background services if there's nothing to download and the Smart download option is disabled, which increases battery life, which only shows one banner ad at the bottom of the screen anything more Than the Best Downloader for Android Supports up to 32 parts to speed downloads Up to 5 simultaneous downloads You can pause and resume downloads, so you don't need to worry about a bad internet connection Download magnet files using the link, torrent URL or torrent file on your device Download streaming music, videos, movies from your favorite websites using IDM Browser Auto Download Music, Videos, Images from Instagram, Facebook, Tiktok and other social media Supports HTTP Streaming Live websites (m3u8 downloader) Smart download option to download files when you copy the links to the IDM - customize yourself or download from 100 themes presented by loyal users A class error processing IDM download manager has the best way to update expired links using the IDM browser. You can also directly update the download link and resume IDM comes with a very smart error handler. Your downloads will never be damaged even with a poor Internet connection browse without the advertising IDM download manager, probably the best pop-up blocker (inside the IDM browser) available on Android. You can even install it to ask before you open any new host tabs based on the ad block to block the AdBlock AdBlock AdBlock AdBlock AdBlock ad update hosts file. You can add your own internet source, and add your own host file to block ads not detected IDM Your Privacy issues Blocks third-party trackers Incognito viewing mode for private browsing With a couple of clicks you can delete browsing history, cache, cookies etc! IDM Browser Multiple tabs, history, bookmarks and other goodies Save the full web page offline to access, even if you don't have an Internet Connection Kind/Save web page source Batch downloading website Grabber download all static files on the package package page to download files using pattern Download Manager's additional features Multi Language and Multi Theme Direct downloading music, videos, movies and other files on the SD card Hide downloaded files from all IDM download manager uses file directory based file type Password Manager to save username and password to automatically log in while browsing and downloading from password-protected files/websites Speed limit, To limit download and download speeds Calculate MD5 checksum Wi-Fi-only mode to save mobile data documents, programs, etc. IDM download manager Support several web browsers, including: Default Android browser, Chrome, Firefox, etc. Advantage Plus version Ad free Download planner to schedule download up to 10 simultaneous downloads Support proxy (with or without authentication) that DOWNLOADING FROM YOUTUBE IS NOT SUPPORTED because of their terms of service Disclaimer : Downloading and viewing any copyrighted file is prohibited and regulated by the laws of the country in which you live.
