Counts may vary by service and depend on the availability of your data. The counts will be updated daily once available. Altmetric calculates a score based on the online attention an article receives. Each colored segment in the circle represents a different type of online attention. The number in the center is the Altmetric score. Social media and mainstream media are the main sources that calculate the score. Reference managers like Mendeley are also tracked, but do not contribute to the score. Older articles usually score higher because they have had more time to be noticed. To explain this, Altmetric included context data for other articles of similar age. 12 handle cover \$11.05 Part number: 416496-9 Ships on 12 - 18 business days ships in 12 - 18 business days 4 Cord Guard \$2.44 Part number: 682505-8 In stock, 25+ Ships Available within 1 business day 8 Belt Cover \$6.05 Part Number: 416495-1 Ships In 12 - 18 Business Days Ships on 12 - 18 Business Days 9 11 12 14 15 16 17 The Ring 28 \$2.99 Part Number : 213415-4 In stock, 23 ships available within 1 business day 19 20 23 Separator \$2.03 Part number: 416494-3 In stock, 22 Ships Available within 1 business day 24 25 Fan 80 \$8.25 Part Number: 241662-7 Ships In 12 - 18 Business Days Ships in 12 - 18 Business Days 2 6 29 Fan 84 \$4.54 Part Number: 240013-1 Ships in 12 - 18 Business Days Ships on 12 - 18 Business Days 31 Baffle Plate \$3.02 Part Number : 416498-5 Ships In 12 - 18 Business Days Ships in 12 - 18 business days 34 36 37 38 40 41 42 Table \$66.9 Part number: 150983-5 Ships in 12 - 18 days Ships in 12 - 18 business days 43 44 47 48 49 Safety cover \$4.54 Part Part 344622-9 Ships in 12 - 18 business days Ships in 12 - 18 business days 52 53 55 56 57 58 60 Washer Belt \$2.09 Part number: 344624-5 ships in 12 - 18 business days ships in 12 - 18 days 61 Business Steel Board \$4.18 Part Number: 344621-1 Ships On 12 - 18 business days Ships in 12 - 18 business days Note: Cork rubber plate Required for installation 62 64 65 66 67 69 70 5001 348 USD q 298.05 EURPlanes Transactions with Euro? Today, October 31, 2020, according to the Central Bank of the Russian Federation, the cost of 1 euro is 1.17 U.S. dollars. Thus, 298.05 euros can be exchanged for 348 U.S. dollars (three hundred and forty-eight U.S. dollars). To calculate other values, use a currency converter. The system will automatically calculate the amount you need - just type it in the window below, and in a second the result will appear on the screen. For example, you want to do this calculation: The cost of 892359 U.S. dollars is 764267.67 euros. The exchange rate on our website is updated every day, so you do not miss important changes - and will be able to carry out all transactions with profitable currency. Above is a chart of changes in last month's quotes. The maximum cost was 298.05 euros from 31.10.2020. The minimum cost - 293.47 euros - came on 22.10.2020. Here are all the deposits from Russian banks, which will allow not only save, but also earn in 348 US dollars or 298.05 euros. For each offer, we indicate interest rates, annual returns and income that you can earn by investing dollars or euros. For your convenience, we also notice the main benefits of each program. And if you couldn't find a good deal on it - click here to find a deposit on your terms. Invest profitably with Vyber.ru! I'm going choose.ru!
