Guide dog pub portswood

September 15, 2015 by executive committee. © OpenStreetMap contributors I will clarify the blog with some posts about local pubs, trips and meeting places. And the first entrance has to go to the dog-free guide house in the Bevois Valley. You won't notice it as you walk past Aldi and fast food establishments, but this exceptional real beer pub is just a hundred yards from Ancasta Road (opposite Maplin) to its junction with Earls Road. The Guide Dog is not a food pub, but there is always a good and varied range of well-kept, robust beers and ciders. The pub changed hands a couple of weeks ago; the new owners are as welcoming as their predecessors. The changes are small; it is now easier to read the beer list from the other side of the bar. This pub gets the first place on the blog, as it is the unofficial place of the branch executive; you can usually find at least three of us there after six on a Friday night. The new owners took over in August 2015, giving the pub a renovation and opened a new rear room, known as the 'Dog House', along with a patio space. Both are compact but make imaginative use of space. Currently (2020) there are 11 manual pumps and a range of bottled beers behind the bar. The cellar has been completely adjusted, and the quality of the beer in this wide range is very good indeed. A Thai curry night takes place on Thursdays and cakes are sold regularly on Southampton FC's home game days; The pub can also open early for home games depending on the start time. The pub has a number of awards and was voted Southern Hampshire CAMRA Pub of the Year 2018, which adds to many past awards. Closed Historical Interest as Valley Inn 1981, opened as Guide Dog Brewery 1983. Another room, 'The Dog House' opened in the back of 2016. Regular draft beers This pub serves 5 regular beers. More information See the photo images The Guide Dog is quietly located on the edge of Earls Road in Bevois Valley. Despite being worn over the years, its side blue facade stands out from the other stone houses on the street. When you open the front door, you get a smell that reminds you of pubs from a past time. The stamped carpet is better than a well-stepped path to the bar where the constant blow of pint-pint pots paints and scrape the varnished wood. An army of polished brass pumps line up side by side and dispense a variety of traditional ales, from flower pots to Fullers ESP. (Prices from 2.80 to 3 euros.) The pub prides itself on its variety of real beer, having won the South Hants CAMRA Pub of the Year four times in the last six years. They also serve 1/3pints so that regulars can try a range of ales without worrying about being above the drinking unit limit. Even at lunchtime a steady stream of regular passage through the door in a warm and welcoming atmosphere. A gentle buzz of conversation hangs in the air, only marked by the sound of a newspaper being delivered or a raucous fit of laughter. The Guide Dog serves no food besides sandwich rolls at lunchtime, preferring to offer locals a place to relax, relax and chat. And in a world of chain pubs and noisy wine bars - it's a winning formula. She spent many years as a very active member in the CAMRA branch of southern Hampshire, including being our President and Social Secretary, until she was hit by a stroke. She was still active in branch activities (especially trips to the brewery) for a long time after this. A significant number of people were present at a service to remember Hilary at Southampton Crematorium on Monday 23 August, and then in the Guide Dog, Bowman Ales generously donated some barrels of Swift One, which was sold as Hilary's Half with gains going to charity. The money earned from this and other donations in the Guide Dog raised more than 400 pounds for the Wessex Cancer Trust. More donations can be made through J Lawrence Undertakers. The Hop Inn, Bitterne Park hosted the performance that had to be postponed several times -- the last of which when it snowed a week earlier.
