Frosty White No 10/10.3.2.500 CB10 I want to set up a VPN connection between my BlackBerry Passport Device and Popcorn Time. First I have to create a VPN profile, so I have to fill in, of course. That's why I'm asking a question about the full POPCORN Time VPN address. But why do you need a third-party VPN app? Because I don't get it. If you want to mask the fact that you have access to PT at all, it may be preferable to put your own profile that you buy on your own. Hopefully not edited by the administrator to be fair lol.
