NEW YORK (AP) - Kim Wexler may be the most quietly complicated character on TV. She is the lawyer Albuquerque, head of series and nose to head who, two seasons in Better Call Saul, remains full of mystery and contradictions. More paradoxically (or so it seems): Like, both professionally and romantically, Kim long ago threw with fellow lawyer Jimmy McGill, the hero of the series played by Bob Odenkirk, a free-wheeling scoundrel who cuts corners with such gusto his squares become circles. He, of course, will eventually double his duplicity by renaming himself Saul Goodman and playing a key role in breaking bad's meth production chaos (which aired from 2008 to 2013). But in Saul, the prequel to Breaking Bad, Jimmy's soul remains at stake as Kim appeals to her best nature, and to her. There is a lot of history between them, but also many boundaries, says Rhea Seehorn, who plays Kim. It's not flirting and sexual superficially. There is a rich friendship and true respect going back and forth. Kim is a channel to the public for what they love about him, he adds. No viewer wants to think about how one day, like Saul, he's going to order shots on people, but we like jimmy coloring just off the lines remarkably well. I don't look every season of 'Better Call Saul' like a countdown to 'Breaking Bad', thinking, 'We're much closer to him being Saul.' But in season three you get more glimpses of Saul emerging in Jimmy. This transformation is heartbreaking. But he's still a great lawyer, he insists. And a great thinker. As Saul returns for his third season Monday at 10:00 pm EDT on AMC, Kim also remains a great lawyer, a great thinker and his race of enigma. No wonder, for Seehorn, playing Kim was a learning process from the start. Rhea (pronounced Ray) Seehorn became an actress to learn: I was obsessed with trying to psychologically understand people who aren't me, she says, and walk in their shoes for a while. In person, her shoes are clearly different from Kim's: stylish boots, not office-friendly heels. Her blonde hair falls over her shoulders, freed from Kim's stiff ponytail. Flashes a dazzling smile almost never shown by the meditative Kim, whose introspective bearing strikes a stark contrast to Seehorn's lively manner. I'm obviously more awkward and exhausting in real life, she says. But it's really fun to play someone fresh. He had recorded stage credits on and off Broadway, and supporting roles in the sitcom Whitney and the carefree drama Franklin & Bash, when he rehearsed for Better Call Saul. To protect themselves from the leaks, the producers kept all the real scenes of the show, and also the details of the role Seehorn was looking, lightly under the wrappers. Here's describing the scene that was given to her by the casting directors: I was a policewoman on her way home, exhausted, after her night shift that saw a disturbance in an alley. She thinks it's a prostitute and drugs, but it turns out it's her sister, whose tuition was paying to send her to school in another state! As Seehorn later realized, the scene served as a showcase for traits that could be th effected on Kim Wexler's character: the manic part of Kim's work; the need to maintain control; that deal with a personal relationship with respect to the professional one. They wanted to see: Can I do that? Can I do that? And we've done it in many, many ways. I made an explosion! But it makes you sweat a lot. I wore a sleeveless blouse for all the auditions. In all, there were three hearings, the last one alongside Odenkirk. Even then, Seehorn knew little else that the party he was looking for was a lawyer. He had no idea what the character's connection to Jimmy might be, no clue as to the size of the role. But who cares? Even if you have a small part in a brilliant game, it will be a big part! Needless to say, Seehorn found his place in front and centre of the action. But she, along with the audience, continues to find out who Kim is, script revealing script, episode by episode. You play the scene that is right in front of you. There's no need to look forward, he says. It is not that producers are manipulators. You're not like a puppet and they know everything, but they just won't tell you, so they can make you dance faster. They're mapping the world the way they go, just like you are. Along the way, the connection between Kim and Saul continues to defy any easy explanation. Putting a label on it is not just the point, but a disservice to what's going on between them, Seehorn says. It's not that simple. _____EDITOR'S NOTE - Frazier Moore is a national television columnist for The Associated Press. It can be reached at fmoore@ap.org.
