This is a unique technique that pulls hair out of the root with a simple twist of 100% cotton thread. In recent years, eyebrow and facial hair carving has become very popular throughout the United States and Europe as an alternative to waxing and tweezing because of the following great benefits: Delicate: Carving does not exfoliate or irritate the top layer of the skin like wax or other simple techniques: Carving requires no tools other than one piece of 100% cotton thread. Unlike other

methods, carving does not require hair to grow to a certain length in order to be pulled. We will teach you to pull out of their roots even the best hair. Safe: Because no chemicals are involved, there is no harm to sensitive skin. This is highly recommended and a great option for those who use Retin-A, Accutane, or similar products. Best of all, there is no chance of a painful or dangerous chemical reaction. Our eyebrow carving classes will teach you the unique techniques needed to create striking eyebrow shapes to frame any person. Why learn from us? We're sure our incredible eyebrow carving classes are the best out there and will teach you everything you need to know to stream. Your eyebrow carving expert will take time to help you learn the art of hair removal with a simple thread twist. Where do we teach?
