Unit Units of S.I. Units Conversion Units S.I. Prefixes and Multiplying Number and Fraction Units Ratio Units Are the Least Common Multiple (L.C.M.) Highest Common Factor (H.C.F.) Fraction Conversion into Decimal and Conversely Scientific Calculation Square Roots Root Rationalization Simple Calculator Ratio Work and Labor Related Problem Average Percentage Conversion of fractional number in percentage conversion Percentage in Decimal Conversion of Decimal in percentage of simple metal calculations Properties Iron Metal Types Of Metals Differences between Ferren and Nonferrous Metals Colored Alloys Mass Weight and Mass Density Weight Differences Between Mass and Weight Density Relative Density Laws Floatation Speed and Speed of Recreation and Speed of Movement Differences Between Speed and Speed Slowing Newton Movement Laws , Power and Energy Work Power Horse Power Engines Mechanical Efficiency Energy Algebra Rules Positive and Negative Signs Of The Laws of Indices Adding and subtracting the algebraic increase in number and separation of algebraic numbers algebraic formulas Factors of tingnomic equations of square equations Mensuration Circle and the area of the plane figures of the volume area and the volume of spherical figures Area Solid Body Revolution Trigonometry Relationships between the sides of the Triangle Trigonometry Relationship between trigonometry coefficients of systems measuring the angles of trigonometry values of some angles of heat and boiling point boiling point temperature difference between temperature and heat Heat Heat Effects Specific amount of heat heat water equivalent to thermal exchange of heat-calorimeter Transfer thermal thermometer Pyrometer Expansion of solids Power Production Use of electric types of electrical materials under the Electric Electric Power Act AND OARN D.C. Ampere Electrical Power Electrical Voltage Potential Difference (P.D.) One Volt Resistance Specific Resistance Ratio Electric Circuit Series And Parallel Resistance Connections Electrical Energy Electric Energy Simple Machines and Force Levers Load Mechanical Advantage Speed Ratio Efficiency Machines Types simple machines lever elasticity Elasticity Plasticity Stress Strain Various types of voltage Hook Act Resilient Limit Ultimate Stress Stress-Safety Stress Factor By Crooked Young in Modulus / Module elasticity Modulus stiffness Poisson Ratio Mass Modulus Relationship between Modulus for this material Materials Classification and semiconductor properties of properties Magnetism Magnetism and Magnet Types Magnet Classification of Magnetic Substances Laws magnetism Magnetic field Important definitions, Associated with magnetism Determining the direction of the magnetic field of the current carrier conductor magnetic current effect in two parallel conductors Solenoid Electromagnet Force definition in the current carrier conductor Faraday Laws of electromagnetic induction application of electromagnetic force Device to measure atmospheric pressure law Boyle Charles Law Of Gas Equation Pascal Act Thermal Processing Critical Temperature Three phases of thermal processing law from the square root of Cube Cube Root Root Rationalization Alternating The Current Chain Alternating Current Terms, Associated with alternation of the current wave resistance speed Pure Chain Inductor Capacity Capacity Capacity Reaction Time Constant Capacitor Impedance Resonant Circuit - Polyphase Factor Combination of Resistors Series and Parallel Combination of a Series of Capacitors and a parallel combination of induction energy Factor Important Formulas associated with calculations for AC Circuits Battery Internal Battery Resistance Battery when the applied force is in the horizontal direction of the Friction Force, When the Force tilts at an angle q with horizontal lubricant Force Representation of Force Parallel Forces Resultant Forces Type Representation of forces Composition Of force Resolution forces For the balance of forces acting on the body Parallelogram Law of Forces law of forces Law of Forces Lami's Theorem Jib Crane Center of Gravitational

Acceleration Center of the symmetrical definition of the body of the Center of Gravity for asymmetric objects Determining the center of gravity through the calculated state of equilibrium types of equilibrium In binary, the binary numbers system conversion system into a decimal number system converts the decimal number system into an Octal Room Number System system to convert the decimal binary numbers system system into Octal Transforming the octal number system into a sixty-year-old room system converting the binary number system into a sixty-mile room system Converting the sixtieth system into a binary numbers system Comparison decimal, binary, Hexadecimal and Octal Number Electrical Assessment and Value Estimate for Internal Electrical Wiring Load Calculation for Internal Wiring and Choice Cable/Wire Conductor Size Calculation for Internal Wiring Load Calculation with Variety Factor Choice Cable With Acceptable Voltage Drop Training List Materials and Estimate of the Cost of Electrical Wiring Graph Key Points draw graph solution On schedule Equation of two variables Interest and Depreciation Percentage Change fraction in interest loss and profit Discount Simple Interest Connection Connection Associate will place the order on your doorstep and step back, to maintain a 2-meter distance. Customer signatures are not required at the time of delivery. To pay for delivery orders, we recommend paying with a credit card/debit card/netbanking via a paid link sent via SMS at the time of delivery. To pay in cash, place the cash on top of the delivery box and step back. Amazon directly manages the delivery of this product. Tracking the delivery of an order to your doorstep is available. Ratings and Reviews3NiceBook is good, but the materials that are given to the chapter wise are not enough to hack any competitive exams.....
