Natalia from New York, NY Verified Reviewer Verified Buyers Original review: July 3, 2020Based on a person's situation, American High School can be a good option. The price is affordable, but the quality of education is mediocre. I wish there was more differentiation as long as they taught their courses. I'm a teacher myself, and I don't think there's enough connection to real situations. It is easy for children to get lost in the curriculum, just reading a book and not being able to apply what they have learned in the real world. Simply reading a textbook and making an assessment are not enough to prepare for college and be able to apply what you have learned. But I like that you have the opportunity to re-evaluate to improve your grades. My daughter is doing pretty well, but sometimes she struggles to stay focused because just reading a book and watching a video can get really boring. I hope that they will include more projects to diversify it a little and provide them with more practical experience. I didn't like the social environment at my zone school, so I chose to do online training. But I don't know if we're going back next school year. But I love Brianna. She's great. If I have questions about how my daughter is doing, if she's on the road or what she needs to do to stay on track, that's what I'm calling. There's a lot of work to do. I feel like it's a lot stricter than a normal school and my daughter has never done that. But Brianna is very cool and helpful. Read Kelly's full review of Rockford, IL Verified Reviewer Verified Buyers original review: July 2, 2020My son had problems in public school and he had a really rough few years with depression. I figured to get him off stage, he'd better study online. The cost of high school in America was incredible and much cheaper than many others I found. I like it because I'm a single mother with two kids. My mother had to pay for it, but she won't be able to pay much more. So I'm going to have to take over. 85 a month, and I can afford it, which I'm grateful for. I'm surprised the cost of American High School is so cheap because of the way everything is set up online and we can talk to teachers. I can call our counselor anytime, day and night, and to help us. And everyone's personal there, and I really like it. Our relationship with their representatives at school was great and I love them there. They're so nice, they answer all the questions, and they're always there to help if we need them. My son did seven classes, including PE, algebra and social sciences. But he stopped for a while because of the summer, so next month we'll go back to the prom and go for a ride again. He really likes it. It was very difficult to deal with the children every time we flew. We looked at websites and read all reviews. I also ask my daughters what they think of three different options. They said they liked one. The enrollment process was easy. We are very new to this kind of thing and the beginning was a little confusing for us. But months later, we felt comfortable. Interactions with teachers are really good. My 7-year-old daughter isn't that social, but she said she was fine. When she's confused, she just writes to them. There is a website and is in contact with them every day. We are very pleased with the school. June 15, 2020 - American High School's response, thank you Graziella! We are extremely delighted and excited that your daughters like our program. We strive to make it as easy as possible to enroll and our teachers and counselors work extremely closely with all our students, as this is the most important part of online education. Staff, administration, and everyone at American High School appreciates that you have taken the time to provide this valuable feedback. Thank you. American High SchoolAdministrationBecca of Providence, RI the verified examiner verified buyers original review: June 1, 2020My stepdaughter is in a traditional high school, and this is her ninth year, and she failed every academic class. She really wanted to take health careers in career and engineering at the school that's in my area. They were going to make her 10th grade, even though she hadn't made it to ninth grade, they were going to double her class so she could be 10th grade. But if they did, he wouldn't be able to have health careers. In order to allow her to have health careers, we decided to start establishing her at home. I searched online for school and really liked them and liked their price. They weren't that bad compared to some of the others, because it's quite expensive, and it cost them 2,000. American high school is cheaper. From now on, with COVID, her last year in the health career, she had to get a CNA license. He was almost there. They began to Homes. But then, it was interrupted, and she was unable to take the CNA test, and she lost out on it. That's crazy because she's due back next year for her EMT license. It costs a lot to make an out-of-pocket and the school plans to pay for almost anything. This one's going to be huge. But if they won't, why am I paying 2,000 an hour to have her home? I don't know if I want to pay for this for the next two years if they're going to do that next year and keep their kids at home. And she doesn't want to be part of it. He doesn't want to do this at home, he doesn't want to know anything. The last few months, she got 80 and 100 in everything, but she didn't really learn anything. She wasn't in class with the bed, the sink and all the other medical devices. Right now, for taking pictures of her, washing her hands and pretending to move you to a chair. Pretending isn't a job, and it drives us crazy. But they're really excellent. I really love American high school. All my worries have nothing to do with themselves. American high school was very much at the prom, for the most part, especially counselors. They are very wonderful and useful. When you need them, just write to them or call them, and they'll call you as soon as they can. They're always there. Sometimes it takes 24 hours to get to someone. But they're in Florida. I'm in Rhode Island. And the school is seven days a week for them. I don't know any of them. They usually send them for the kids. Most of the counselors can help you with most things you think you need a teacher for, but you don't. They have a lot of knowledge. You can work at your own pace or attend classes with teachers. She is inclined to work at her own pace and not to engage with the classes themselves. She really dragged herself to her feet at the beginning. All of a sudden, he pulled him out of his immortal, and he got away. It was amazing. They went from doing a task for a month to doing five a day. My stepdaughter also backed away from failing everything to be an honorary student. After graduating from ninth grade, they offered to go to her honorary class, and that's something she would never offer in full-time high school. Read the full review June 15, 2020 American High School Response BeccaThanks for feedback. American High School strives to keep our online educational offerings accessible to parents. I'm glad you found the tuition fee within your range. It's great that your daughter can do both her academic programs for ninth grade and health careers. Doubling down on students does not seem practical or realistic to ensure its success, and will continue to work hard to keep it up to speed to finish. American High SchoolAdministrationIvan of Newark, NJ Verified Reviewer verified buyers original review: May 28, 2020 We were not satisfied with what our daughter was getting to the private school and in the area where we live, public school is not really safe, so we tried something else. It was very nice with the reputation of American high school. When I call, they call me back. We can talk honestly, and they help. And it looks like our daughter is doing a lot better. Last year she got worried and stopped and they asked me for an extra \$1,000, but I was happy to pay for them because she was helping her. June 15, 2020 American High School answer Istvan I'm just glad we were there in the asista. Making decisions like this can't be easy, and we're happy that she enjoys her online educational experience at American School.Counselors also try to keep students on the task of completing their courses on time, but sometimes they fall behind, so we'll continue to try to keep sticking to motivated and working to complete their studies. If you need anything, please feel free to contact us. American High SchoolAdministrationAx of Bridgeport, CT Verified Reviewer Verified Buyers Original review: July 8, 2020Will live in Bridgeport, Connecticut and the public school system is not so good. My son had to go to a high school he didn't like. They walk past the county, so he said he wants to go online to school. We took this as our other choice, and he started looking for and liked an American high school. We talked to Brianna and Pedro, and he went inside. For us it was the first time, so sometimes if we have any problem or some anxiety, we call Brianna or Pedro or someone there and they help us very quickly. So far, we don't have a problem with them. It was very good. July 8, 2020 The American School Response Thank you, Exal! We are so happy that Joel is one of our students. If you need anything, please let us know. Thank you for joining American High School and being part of our school! Michelle by Elgin, IL Verified Reviewer Verified Buyer Original review: June 27, 2020 daughter goes to American High School and we chose to enroll there because she had severe anxiety and we need time to work on this. The high school counselor had given us a few recommendations, and American High School was one of them. Ever since we signed up there, that's helped. She has better grades in online school than she did in high school. Also, for her courses, she has more variety to choose from than what she had to take to school. She really likes him, and I like it. He's taking forensics right now. It mainly takes the electable - theatre, film. Looking at the cost and quality of education, I think it's The price may be higher, not higher. I don't like that I have to pay for it. But I have to do what I have to do. Michelle of Fayetteville, NC verified the buyer's original review: June 12, 2020American High School was the best option for us. The price isn't that bad. My daughter, Mariah, found him. In the study, she chose the school she wanted to go to. We tried it and liked it. It worked well, so we moved on with it. The enrollment was good. School staff check on Maria and send me an e-mail. - They're fine. Mariah learns a lot. She supports Ace and Bs. She likes him. June 15, 2020 American High School Answer Thank you Michelle for your review. American High School is extremely happy that your daughter is doing well and continues to excel. American High SchoolAdministrationAJ of Asheville, NC Verified Reviewer Verified Buyers Original review: June 1, 2020School was very thorough, I feel enough to pass through the classes, but the tests where very difficult and specific, often leading to incorrect answers. Teachers, where it's nice, I haven't had much contact with them, and I had to figure out most things from ca's self.G. verified reviewer original review: May 29, 2020 We searched for a good online school and I was recommended by someone at the American high school. Both my grandchildren went to classes there. I don't think the staff communicated as much as they should. I'm a teacher myself, and I know how teachers should connect with their parents. I don't think that's the case at this school. They did enough, but when they had to change, they made some changes, and unfortunately they weren't good changes. It was perfect because I was getting notes when I was doing my homework. I took the whole brochure from them, so I felt like I was part of everything. But with my other granddaughter, I feel abandoned in the cold. Learning experience is fine, but the scoring system is difficult because they are based on a percentage factor. A young lady, Brianna, and she was great. It is a pillar of for this place. She's in touch with us. She's doing everything she can to give us what we need. She's really jumped in to make sure we get all the help we need and try to get things done. But a young lady can't run the school alone. We need to get in touch with everyone. And any counselor assigned to a child should be the one who reaches out, not an ambassador, but a true counselor. I don't think they did a good job there. But school's not bad. Read Beaverdam's full Althea review. CONFIRMED by a buyer's reviewer: May 28, 2020I think the content should include more educational videos and interactive content. Some content, especially the end of single projects in social sciences and science, takes my child much longer than according to the tutorial shows that I need and my child needs a lot of help with it. As long as she handles them well, I feel that they are above her level in difficulty. Nerlande G of Gretna, LA Verified Reviewer Verified Buyer Original review: May 27, 2020I'm in an American high school, I'm studying for an international bachelor's degree. I like it, there are some courses that are really important and interesting, but it's such a difficult job because we have to do different things and there's a lot of work for everyone, so I don't have a lot of free time. To be honest I really like AHS, it makes me strong and always take my time in learning a lot of things that can help me with my life. I really enjoy and appreciate everything my teachers do. 29 May 2020 American High School response NerlandeThank to your wonderful comments. I congratulate you on studying for the International Bachelor's Degree. I know it's extremely rigorous and demanding. We're glad you like American high school, despite the hard work with IB classes and AHS classes, but you'll see that it will be worth the effort at graduation. Continue with the good work and I will tell the teachers that you appreciate and enjoy the courses and their help. There was almost a year of time, time, Now he's starting to grasp the difference and start studying. For almost a year he more or less just clocked hours. Over the past few days, he's actually learned something and is enjoying his classes. We even wasted an extra \$14.95 a month on a teacher he never used because he couldn't find instructions and he wasn't someone to ask. First we will call every week, then there are no calls until February, when there was a problem with my credit card. Once he's taken care of it, he never calls again. Skyler called several times for information when we had a computer problem, but none of the school calls. Evens of Brooklyn, NY Verified Reviewer Verified Buyers Original Review: May 26, 2020 Why can I say I have a very good experience with American High School, because when I call as a user, I always find someone very polite and willing to respond and help students. For courses, the system is very easy to use. When I have a problem, teachers are always there to respond and help. I think high school in America is doing a very good job. Thank you very much, May 27, 2020 - Response from Evens American High School!We strive to help all of our families and students ensure that you receive the support you need as you complete your online coursework. Thanks for the very nice compliments. We will be sure to pass them on to counselors and teachers who help you daily.
