Primary education is very important for students because it helps to prepare the base for higher education. In ICSE 3, most topics are primarily focused on preparing students for higher grades. The curriculum is developed by CISCE in a very thoughtful way, so that students are presented on some very important topics without demeaning their interest in learning. The ICSE Class 3 program is well developed and requires immersion and interactive learning from students. Therefore, it is important that students know the curriculum only at the beginning of the academic session for better preparation.
