Recently, Alcatel offered a very favorable mobile LTE hotspot with WLAN: Link'one MW40V. What most attracts is the very good price of this new 4G LTE Mobile Hotspot. At a low price, of course, you can't expect top hardware, but for many users, an integrated LTE modem of up to 150 Mbps should be enough anyway. It lasts up to 6 hours with continuous battery life of 1,800 mAh. Simply designThe LED then backthrough cycle is solid red (download). The LED will go from blind green (BUFFERING mode) to flashing yellow, and then it will become solid red. Taser axon 2 body camera user guide. The Alcatel Link'one MW40V Hotspot is made of matte black plastic, with four LEDs in front (signal strength, WLAN, SMS and battery condition) that receive a signal from a mobile radio receiver. On the side there is a micro-USB 2.0 port for battery charging, but no other interfaces such as connectors for the external antenna, which is very common in Huawei 4G mobile routers such as E5573, E5372, E5786. The SIM card must be microSIM and inserted under the battery. If desired, the MicroSD memory card can be used in addition to the SIM card. Software and appApr 12, 2018 Welcome to GSM-Forum forums. You are currently viewing our boards as a guest, giving you limited access to most of the discussions and access to our other features. Welcome to support Alcatel products. Go to the content. Find a user guide. Find a user guide. Find the EU Declaration. Software and SmartSuite. Specifications. Creating innovative technologies available to everyone to Enjoy.Now.The Alcatel Link'one MW40V Hotspot works with any WLAN-enabled device, whether it's a smartphone, tablet or laptop. Control is optional through a smartphone app (Android and iOS) or through a web interface directly in the terminal's browser. The device doesn't have buttons to control directly on the device or even on an integrated display. April 12, 2017 For more information visit. First, in order to insert the sim, remove the back cover of the device. If necessary, delete the app you. Link App is the official application for managing portable wireless routers ALCATEL ONETOUCH, with which you can extend a single WIFI Sim Card record to a fairly stable WIFI hotspot. Some of the app's features can make your life comfortable. You can reduce the risk of high cost of network traffic across the entire data plan with the volume alert feature. You can also send/receive SMS messages as normal and See the product Alcatel MW40V-2AALGB1 - Alcatel Link'one 4G Cellular Network Router, find the price of Alcatel Link'one 4G Cellular Network Router, Alcatel Link'one 4G Cell Router LED Network, MDM9207, 150 Mbps, LTE, 2Gb NAND Flash 1Gb LPDDR2. Using the LINK app, you can easily control its charge, connection status, and data speed. Lte modem in Alcatel Linkzone MW40V MW40V Category 4, i.e. speeds of up to 150 Mbps in downlink and up to 50 Mbps in uplink. All network operators in Germany, Austria and Switzerland have already equipped their LTE Cat4 networks, with a suitable tariff of 150 MBit/s to be available in real applications. Of course, the Alcatel MW40V is also down compatible with UMTS (3G) and GSM (2G), the UMTS network up to 42.2 Mbps downlink and up to 5.76 Mbps up. According to the manufacturer TCL Mobile, all relevant frequency ranges are supported for Europe: 4G/LTE: 800, 900, 1800, 2100, 2600 Megahertz 3G/UMTS: 900, 2100 Megahertz 2G/GSM: 850, 900, 1800, 1900 MegahertzWLAN and Battery Alcatel-Link 40V is 1,800 mAh large and can be easily exchanged by user. The MW40V operates exclusively in a frequency range of about 2.4 GHz, and only supports 802.11b/g and n standards, a more modern 802.11ac standard, and a 5GHz frequency range not supported at this access point. For the vast majority of users, this should be good, but in some situations, such as at fairs or major events, the 2.4GHz band can have problems. If you think that this Alcatel Link'one MW40v can't meet your requirements, you can check out other new new 4G mobile hotspots from other brands such as Huawei E5787, Netgear Aircard 790, which maintains a high level of LTE standards and of course offer at a higher price. If you prefer the Alcatel One Touch brand, you can check out other models here: . Alcatel Link 4G*Y900 is recommended for LTE-Advanced networks.
