ChromecastSince Chromecast is the type of streaming because it broadcasts the contents of your phone, tablet, or laptop to your TV, the settings are slightly different from other streaming devices. There are two ways to stream content, and both require you to connect a Chromecast device (called a key) to the TV's HDMI port, fast computer, and Wi-Fi connection. Using chrome browser1. Turn on the TV and turn on the Chromecast channel.2. Install Google Cast Extension.3. Go to HBO Go.4. In Chrome.5, click the Casting icon. The browser content will appear on the TV. Using the application1. Go to Google Play or iTunes and download the HBO Go app.2. Turn on the TV and turn on the Chromecast channel.3. Start the HBO Go program.4. Go to Movie or TV show.5. The selected app will appear on the TV. Fix problemsSome common problems people have on the HBO Go service include sign-in problems or inability to view content. If, after checking the password and login, the user is not yet able to log in, this is a problem with their TV provider and will need to contact him. If a user can sign in but the content is unavailable, this is a problem with HBO Go and HBO Go. Another common problem is that too many users or devices are trying to access the same account. Contact your provider to determine the number of users or devices you allow. Allowed.
