Shipping and arrangements for weather king buildings are free throughout the metro areas of Tucson-Tucson, Sahuarita, Vail, Green Valley, Amado, Rio Rico, Nogales, Marana, Catalina, Oracle, Sonoita. Weather King covers most of Arizona as well with more than 100 dealers across the state. All buildings in southern Arizona were built at a local plant in Wilcox, less than an hour's drive from the lot site at 16115 S Three Wells Ct. in the Sahuarita/Vail area. This means that we can ship the building for free and at the same price anywhere from Tucson to the Mexican border. We can ship to many locations in Arizona - the same price. If it's within 50 miles of any dealer, shipping is still free. For dealer locations near you visit www.weatherking.biz. The building was made in the factory and shipped completely and so we needed sufficient access to shipping. Each gate must be at least the width of the building plus 2 feet for delivery. The typical delivery time for a new build is 4 to 5 weeks from the plant but varies depending on the time of year and market conditions. Please contact the dealer for the current delivery time. . For buildings purchased from many, we can usually deliver the building in 1 to 2 weeks, weather permitting, but again the delivery time may vary depending on the time of year and market conditions. . Standard delivery: The building is delivered on a large flat bed trailer to the property. He then shifted the building from the tilt-bed trailer and mobilized the building into place using a mechanical device called Mule. This allows the driver to orient, maneuver, and level the building at the destination in a smaller space. Crane Installation: for properties that require crane installation, we need half of the purchase price of the building in front and there is an additional cost for the crane. The maximum range length for cranes is 80 to 100 feet from the road to the installation site, depending on the size of the building. Prices for cranes vary depending on mobilization time, size of buildings installed and length of range required. Contact us today and we will explain the delivery process in detail. We will also come to your location free of charge to ensure that shipping, whether standard installation or crane installation, goes off without a hitch!
