When taking anatomy and physiology you will be required to identify large muscles in the human body. This quiz requires tagging, so it will test your knowledge of how to identify these muscles (latissimus dorsi, trapezius, deltoid, biceps brachii, triceps brachii, brachioradialis, pectoralis major, serratus anterior, rectus abdominis, etc.). Before you take this quiz, you may want to watch the muscle song that gives you some rhymes that will help you remember the places and actions of the muscles. In addition, you can review the anatomy muscle singing lyrics and notes. (Note: When you hit the leave it will update this same page. Scroll down to see your results.) Muscle Anatomy Quiz 1. Identify the muscle marked as 1 in the diagram above: A. Latissimus Dorsi B. Trapezius C. Serratus Anterior D. Vastus Medialis The answer is A: Latissimus Dorsi 2. Identify muscle marked as 2 in the diagram above: A. Rectus Abdominis B. Latissimus Dorsi C. Trapezius D. Semitendinosus The answer is C: Trapezius 3. Identify muscle marked as 3 in the diagram above: A. Biceps Brachii B. Deltoid C. Triceps Brachii D. Brachioradialis The answer is B: Deltoid 4. Identify muscle marked as 4 in the diagram above: A. Triceps Brachii B. Brachioradialis C. Biceps Femoris D. Biceps Brachii The answer is D: Biceps Brachii 5. Identify muscle marked as 5 in the diagram above: A. Triceps Brachii B. Gastrocnemius C. Semimembranosus D. Biceps Femoris The answer is A: Triceps Brachii 6. Identify muscle marked as 6 in the diagram above: A. Vastus Lateralis B. Biceps Femoris C. Brachioradialis D. Pectoralis Major Response is C: Brachioradialis 7. Identify muscle marked as 7 in the diagram above: A. Gluteus Maximus B. Serratus Anterior C. Pectoralis Major D. Latissimus Dorsi The answer is C: Pectoralis Major 8. Identify muscle marked as 8 in the diagram above: A. Rectus Abdominis B. Serratus Anterior C. Oblique D. Semitendinosus The answer is B: Serratus Anterior 9. Identify muscle marked as 9 in diagram above: A. Oblique B. Serratus Anterior C. Rectus D. Rectus Abdominis The answer is D: Rectus Abdominis 10. Identify muscle marked as 10 in the diagram above: A. Oblique B. Trapezius C. Semimembranosus D. Rectus Femoris The answer is A: Oblique 11. Identify muscle marked as 11 in the diagram above: A. Pectoralis Major B. Gluteus Maximus C. Latissimus Dorsi D. Gastrocnemius The answer is B: Gluteus Maximus 12. Identify muscle marked as 12 in the diagram above: A. Vastus Medialis B. Rectus Femoris C. Vastus Lateralis D. Rectus Abdominis The answer is B: Rectus Femoris 13. Identify muscle marked as 13 in the diagram above: A. Rectus Femoris B. Vastus Intermedius C. Vastus Lateralis D. Vastus Medialis The answer is C: Vastus Lateralis 14. Identify muscle marked as 14 in the diagram above: A. Rectus Femoris B. Vastus Intermedius C. Vastus Lateralis D. Vastus Medialis The answer is D: Vastus Medialis 15. Identify muscle marked as 15 in the diagram above: A. Biceps Femoris B. Biceps Brachii C. Semimembranosus D. Semitendinosus The answer is A: Biceps Femoris 16. Identify muscle marked as 16 in the diagram above: A. Semimembranosus B. Semitendinosus C. Biceps Femoris D. Vastus Lateralis The answer is B: Semitendinosus 17. Identify muscle marked as 17 in the diagram above: A. Rectus Femoris B. Semitendinosus C. Semimembranosus D. Vastus Lateralis The answer is C: Semimembranosus 18. Identify the muscle marked as 18 in the diagram above: Rectus Abdominis A. Latissimus Dorsi B. Trapezius C. Semitendinosus D. Gastrocnemius The answer is D: Gastrocnemius Do not forget to tell your friends about this quiz by sharing it your Facebook, Twitter and other social media.
