Facebook Lite is specifically designed for Android Gingerbread 2.3 or above users, Facebook Lite uses less data and works in 2G, 3G, 4G of all network settings. Facebook Lite: Installs fast - the app is smaller, so it's quick to download and uses less storage space. Loads fast is our fastest app. Download photos faster and see updates from friends. Uses less data - to be more efficient with your mobile data. Save money using less data. It works on all networks - it is designed for 2G networks and areas with slow or unstable Internet connections. Works on most Android phones - you can use it on almost any type of Android phone, new or old. For the full Facebook app, install Facebook for Android: with friends faster than ever. Facebook is free and always will be. On Facebook: 'Message friends and group conversations' 'Get notifications when friends like and how on your posts' 'See that friends before' share updates and photos Now you can get early access to the next version of Facebook Lite by becoming a beta tester. Sign up here: download or install the app? See still needs help? Please tell us more about the problem: is only available to people aged 13 and over. Terms of service: the success of the social network of Mark Zuckerberg is undeniable due to the mass employment of millions of users from around the world, but the dozens of features that have been included have made the app more and more space in memory and consume more and more battery and RAM. Only smartphones and powerful tablets can handle this. If we have a low-end phone there are two alternatives: use web access not optimized by its devices, or use an app that only calculates the basic functions of the social network. We're talking about Facebook Lite, through which the app wants to extend it to places where it's more difficult to access a powerful phone or 4G or a higher data network. Available in Spanish and almost all languages available on the social network. But, is it only useful for modest phones? Not if you have the latest Samsung Galaxy or Nexus model you can also install it APK... maybe because you want to save data consumption or, simply, you don't need all the features of the main application. Differences? That you can only take care of the actions for which the social network Developed in principle: Update your status and comment on the posts of your friends. Receive notifications from likes or comments. Let's see what your friends do. Share different content, such as photos or links. That is, these are the main features. You can forget to stream live video using Facebook Like or any other feature that requires more bandwidth or high performance components. Here are its main features: the app takes up less than one MO memory. Compatible for all Android phones. Less data consumption. Compatible with 2G networks. Loads of high-speed content. Send messages without downloading Facebook Messenger. Whether you have a powerful phone or not, this is a great option if you don't want to consume resources or data. Only essentials. More sober and functional design When opening you can see how its interface is more sober and adheres exclusively to the basic characteristics of the social network. It offers access to people's activity chain and tracked pages at the top of the bar, your friendship requests, messages, notifications, search and user menus. Also, as a big advantage, on the contrary, that full version of the app, it allows us to send messages without requiring us to download the messaging and chat app from Messenger. And no, there is no version for the iPhone ... This app is only available in APK format for Android phones. What's new in the latest version of Stability and Speed improvement. 1 218.0.0.6.119 1.49MB 1 216.0.0.10.121 1.49MB 1 215.0.0.9.119 1.47MB 1 214.0.0.4.109 1.47MB 1 213.0.0.9.122 1.47MB 1 212.0.0.6.106 1.48MB 1 210.0.0.7.113 1.47MB 1 209.0.0.5.119 1.47MB 1 208.0.0.5.120 1.46MB 1 292.0.0.45.123 47.28MB 1 291.0.0.44.120 42.03MB 1 291.0.0.44.120 41.69MB 1 290.0.0.44.121 41.78MB 1 290.0.0.44.121 41.77MB 1 290.0.0.37.121 47.3MB 1 289.0.0.40.121 53.64MB 1 289.0.0.40.121 41.34MB 1,288.1.0.47.123 41.15MB Facebook Lite Lade Facebook Lite herunter.
