It is important that students understand how the correct use of the pronoun will clarify to readers what noun the writer is talking about. Use the printed sheets below to help students get the reinforcement they need to use subject and object pro fetch. There are two types of pronouns: subject pronouns, the subject's subject, and the pronouns of objects, usually the object of the pretext. Determining the correct choice of word becomes more difficult when the pronoun of an object is used as an add-on of the subject after the verb links. Known as the nominative predicate, the form follows the form of the question's pronoun. On the other hand, the pronoun of an object is used for traces of an excuse, for example, after, between, for, and c.
