Freedom fighters are resistance groups represented in the Western canons of Sonic the Hedgehog, which have thwarted many schemes created by Dr. Robotnik and later any antagonist who appears on Mobius. Knothole's main group of freedom fighters. Hedgehog Sonic (TV series) In the second American cartoon Sonic freedom fighter Knothole consisted of Hedgehog Sonic - who was the protagonist with superfast; Tails, two tailed fox, which was captured by Sonic and wanted to be a complete freedom fighter; Sally Acorn - who led the Freedom Fighters and was the princess of the city Robotnik took over; Bannny Rabbot, a friend of Princess Sally and a Southern beauty who can be used as a means of stretching or power; Rotor Walrus, who will act as a mechanic and smart cartoon guy; and Antoine D'Coolette is a comic relief who will try and fail to win Princess Sally's heart. These freedom fighters sought to revive the kingdom, once led by Princess Sally's father King Max the way it did before the tyrannical Robotnik came and took up the post of King Max; and while they were focused on freedom fighters at the time there were other groups, such as the wolf pack, who also wanted to get Robotnik from power. Hedgehog Sonic (comic book series) Archie Comic also adapted freedom fighters when adapting plot points from a TV series into a comic book of the same name.. They had the same agenda in the comics as in the series, but after the death of the Robot, the king returned and the kingdom was restored to Knothole. Then the status quo changed from a group of Ragtag rebels to soldiers fighting a terrorist wielding a small part of the globe. However, before the term Freedom Fighters began leaving as a term for comic book fighters and protagonists, they eventually included more characters like Mina Mongoose, who is now a former freedom fighter but was nonetheless one. Life for freedom fighter Freedom Fighters trained and didn't go to regular school in American comics because they never knew when the mission would be assigned so they had school when they could match the time. It is dangerous to be a freedom fighter. Sonic and Sally always told each other in the series to take care, because once the freedom fighter went on a mission, there was no guarantee they would return. Sonic Comic Sonic and co remained condemned to live the life of the fugitives even in the British comic edition of Sonic the Comic. When Sonic and several of his friends were thrown six months into the future by Dr. Robotnik, the evil genius used their absence from the time of the flow to conquer Mobius absolutely. After returning, Sonic quickly founded a clandestine cell of freedom fighters. Initially consisted only of himself, Tails, Johnny Lightfoot and Poker Lewis, freedom fighters from a dungeon controlled by a Kintobor computer, a digitized copy of the mind of Ovi Kintobor, the former I am Dr. Robotnik. Other members were occasionally added to the team's list, but they eventually lost their base and were forced to roam the planet disguised as an itinerant circus when Robotnik learned of his whereabouts and destroyed it. The adventures of Hedgehog Sonic In some episodes of Adventures, Sonic the Hedgehog Sonic refers to himself and Tails as freedom fighters. Sally Acorn and the rest of the freedom fighters have never been seen. However, the Sonic Christmas Blast, which is considered an episode of Sonic the Hedgehog's adventures, features a cameo by Sally Acorn. Sects freedom fighter As shown in various series Hedgehog Sonic, around Mobius operates a number of sects Freedom Fighter. Freedom Fighters 2 Plus is the third and final entry in the series. Richard Elson's art About six months after the RBR era began, Amy Crossbow's Metal Staff The Freedom Fighters is a group that appeared in Sonic The Comic, published by Fleetway Editions. They are a resistance group that opposed Dr. Robotnik's dictatorial rule on the planet Mobius. The story of the Original Freedom Fighters consisted of Sonic the Hedgehog (leader and founder), Tail, Porker Lewis and Johnny Lightfoot. These four individuals were transported six months later to the future by Robotnik (who took control of Omni-Viewer to complete the task),[1] only to discover that Robotnik had conquered the planet in their absence. [2] Freedom fighters were put into the team after a while. The team was supported by a Quintobor computer that possessed the knowledge and personality of Dr Robotnik's nice alter-ego, Dr. Ovi Quintobor. Amy Rose also joined the team,[4] eventually becoming a leader in Sonic's absence. During Sonic's long absence in the Special Area, Shortfuse Cybernik joined as an interim member. Through Shortfuse, they were introduced to the scientific genius Tekno Kanarsky,[6] who stayed with the team even after Shortfuse broke up with them. [7] Freedom fighters initially operated from a Dungeon base that was once a laboratory owned by Dr. Kinto camp. When this base was discovered by Robotnik (thanks knuckles ichide), they were forced to flee it and roamed Mobius disguised as Bob Beaky's Traveling Circus (loading a Kintobor computer on one of mobius's Golden Rings). [9] This base was also lost when Super Sonic destroyed it during the rampage. [10] In the final days before Robotnik's defeat, they withdrew from the secret underground laboratory of Tekno. [11] The Freedom Fighters eventually succeeded in turning over the Robotnik empire and liberating the planet. In the days following the fall of the Robotnik empire, although there was no further need for Freedom Fighters, old team members continued to tear down evil schemes and protect Mobius civilians from attacks. They built a new base in the Emerald Hill Zone, the Control Center, that allowed them to monitor the planet for signs of attack and respond to distress signals. The control center was piloted by a Kintobor computer that was loaded into its system and connected to a network of sensors. [13] Members have been slowly reeling for years: Porker Lewis resigned after a nervous breakdown, an interim shortfuse member was expelled after falling out of a gang and Johnny was killed in battle. Trivia Most of the team members were Sega created characters (Poker Lewis and Johnny Lightfoot were based on animals rescued at the end of the Sonic video game level), although later members were STC originals.
