Usps no authorized recipient available mean

This Annex lists all possible product tracking and reporting (PTR) event codes (both current and scheduled) for Home Express Priority Mail or Return to Sender's Mail. The codes are displayed in positions 144-145 of the extracted PMEM file (see Appendix H) and on the Internet search site. * Indicates a clock stop event. ** Scan Events 53, 54, 55, 56 will be provided to Mail Express priorities and when the non-Priority Mail Express package is delivered at the same time as the Mail Express priority package. Home Priority Mail Express Event Codes Event Name Description MA Manifest Confirmation of electronic receipt of a record representing a postal shipment in the System Tracking and Product Reporting (PTR) database generated by receiving/processing an electronic file sent by mail. This is not a physical check of the package. Of Out for Delivery When a postal piece receives a physical check of arrival on a unit at the USPS facility that will deliver the mailpiece, an Out for Delivery event is created. PC Sorting/Processing Complete After mailpiece gets 07 arrival on the scan unit (usually at post office or DDU) and outgoing mail processing is completed, the PC event is seen sorting is completed and then of the scan system is created. 01 Received* Carrier scan of package to final delivery address. This check can also be used when the item is undeliverable for any reason and is sent back to the mailer and then scanned as Delivered back to the original sending mail. DX Delivery status is not updated When a mail order is given an OF event (for delivery), there is an expectation that within 14 hours the piece will receive an hour-stopping scan. If the clock stop check is not created within 14 hours, a DX event is created that displays the Delivery Status is not updated. 02 Attempt / Notification Left * Scan package to final delivery address, but delivery is not due to any recipient available, unsafe to leave unattended, etc. The notice on the left includes leaving PS Form 3849, Notification of Delivery/Reminder/Receipt. 52 Notice on the left See subset below (53-56). 53** Container blocked subset 02 Notification left: Provided with Mail Express priority and when the non-Priority Mail Express package is delivered at the same time as the Mail Express priority package. 54** Container Full / Oversized Item 55** No safe place available 56 ** No authorized recipient available 03 Receive or Pickup (by operator) This check may represent multiple purposes. If the carrier receives the package at the customer's post office or picks up the package at the customer's residence/business, it can scan this action using 03. If a commercial e-mailer using validation services provides a PS 8125 or 3152-E form with an electronic barcode file number, these forms scanned at the point where the mail is ejected. Each postal item in the related electronic file shall be updated with the date and time of this check. TM Truck manifest, provided as receiving a shipment This is a physical check of ps form 8125 or 3152-E barcode representing the electronic file number associated with this particular post. Provides updated receipt for the date and time/location of mail and replaces what is provided by mail in an electronic file if it differs from the file. 04 Rejected* The shipment is rejected by the consignee at the final delivery address. 05 Undeliverable as addressed* The package address is not a valid delivery address. 06 Forwarded* The designated consignee has been moved and the shipment is forwarded to a new address. 07 Arrival per unit Indicates that the item has been scanned at the final postal unit where the postal item will be delivered. 08 Missent The shipment was sent to the wrong postal facility, which cannot make the final delivery. This incorrect procedure was done by the USPS. 09 Return to a subset of sender codes with reasons for RTS are listed in the Intelligent Mail Package Barcode (IMpb) Implementation Guide for: Confirmation Services and Electronic Authentication System (eVS) Senders, which is available through the Business Mail Receipt website on . 10 Processed This is an automated, intermediary control of a package while travelling through a USPS processing facility. PA Passive Receipt, provided as Receiving Shipment this is a system generated event assigned to all mailpieces in mail associated with mailpieces in an electronic file. The first mail piece scanned as processed in the appropriate correspondence gets a road scan and this date/time/place stamp creates PA events for all other mailpieces within this post. 11 Dead Letter * Postal items that are undeliverable as intended and do not have a return address. Items damaged due to incorrect packaging, or items found loose in mailstream and the owner is unknown. 14 Arrival at the pickup point* Mailpiece arrived at the postal facility. 15 Incorrectly delivered* The postman sent the consignment to the wrong postal delivery device from that establishment, for example an incorrect destination delivery unit which does not have a final delivery address within its service area. 16 Available for pickup These are reserved for CRS or Priority Mail Express HFPJ. 17 Picked up Agent These are reserved for special products such as package return service (CRS) or Priority Mail Express Hold for Pickup. 19 DC eVS Arrive Scanned t drive for postage verification purposes. It is not displayed on the USPS Track/Confirm website, but is shown back to the post office in their extract files. 31 Return to sender/ Item not picked up is returned to sender from number of reasons, including rejected, undeliverable as addressed, etc. 09 09 usually not visible – instead, one of the subgroups of the return event to the sender will be provided. See Return to sender codes on the next page. 41 Received on the opening unit* (reserved for Open & Distribute) n/a 42 USPS Handoff to Shipping Partner n/a 43 Picked Up This event indicates that the goods have been picked up by the customer. 44 Customer recall This event indicates that the sender has revoked the priority interception of express mail for collection. 51 Business Closed n/a 80 Picked Up by Shipping Partner This event is not available in dump files; it is only visible on the USPS Track/Confirm website. Shipping partner events will only be visible if they are provided by the mail partner using the Shipping Partner Event Code file. These events are never generated by a physical search from the Postal Service. 81 Arrived Shipping Partner Facility This event is not available in the dump files; it is only visible on the USPS Track/Confirm website. Shipping partner events will only be visible if they are provided by the mail partner using the Shipping Partner Event Code file. These events are never generated by a physical search from the Postal Service. 82 Outbound partner equipment This event is not provided in the dump files; it is only visible on the USPS Track/Confirm website. Shipping partner events will only be visible if they are provided by the mail partner using the Shipping Partner Event Code file. These events are never generated by a physical search from the Postal Service. EF Departed Sort Facility n/a SF Departed Post Office n/a Return to Sender Codes * Indicates a clock stop event. This content is old, go here and start a new post. Highlighted highlighted highlighted highlighted highlighted I always follow tracking updates, previously I bought or sold that item. The last item I sold tracking stated: Well Authorized Recipient Available I'm not sure what that update means before it says it's for delivery. This is not the type of package required by the signature. Any idea? Thanks it might feel better if you contact the buyers of the real PO and find out just exactly went for there. They can follow back, especially if it was yesterday and ask the real delivery man what happened to this package. Don't wait too long! Before going through everything, check the USPS site with what the report says. Sometimes eBay has information other than the USPS actually tracking the information until it settles down. The true secret of happiness is not what you have or what you get; is what you share. - Anonymous This means that he tried to deliver the package and there was no one there to sign for it. I've had that kind of surveillance. It was delivered the other day (and I quietly thanked

==== It means exactly what it says. The delivery man decided it would not be safe to leave so they said that no eligible beneficiary was available. This is usually seen only when a signature is required. may have made a mistake in choosing the reason; and maybe it was even delivered. Highlighted highlighted highlighted highlighted highlighted highlighted highlighted highlights you need to sign in to join this conversation. Remember that contributions are subject to Etsy Community Policy. — In transit, arrival on time — arrival at customs — USPS tracking is not available for this package — insufficient address — held at the post office, At the customer's request — held at delivery warehouses/delivery offices — None such number — Redelivery Scheduled — Consignee Unknown — rescheduled for the next day of delivery — Notification on the left (no safe place available) — Payment of fees — Goods to be stored, the addressee has been informed — Refused — Processing exception — Notification on the left (Container full/oversized) — Addressee not available — Scheduled for further delivery attempt today — Exception for service, Cancellation of animals — Loose — Incorrect address — Verified address of the addressee — Moved, left without address — Intercepted — Delivered to military mail — Missed delivery – Scheduled for next delivery attempt today – Expired delivery – Delivery exception, Local weather delay – Incorrect address – Item sent/redirected – Seized by law enforcement – Tendered to Military Agent – Return Confirmation to Associated – Incorrect address – Scheduled for next delivery attempt today – Dead Mail/Sent to Mail Recovery Center – Picked up and processed by Agent - Attempted Delivery - Shipment forwarded / redirected - Reminder , Schedule redelivery of your item – Received by agent – Damaged goods – Undelivered goods – Goods held, addressee informed – Wrong address – Attempts delivery on next business day – Processing exception, Other delay – Consignee moved – Redirected / redirected goods – Addressee requested later delivery - Goods located at the request of the addressee – Processing exception, Delay
