So far, the cast of Game of Thrones has had all sorts of questions pressed for eight seasons. They heard it all over and over again. And so, certain questions got tiresome on various talk shows, junkets, and shouted paparazzi questions. If there's one thing we've learned so far, it's not to make certain Game of Thrones cast members crazy, at least if we blur the line between reality and fiction in our minds. Interviewers may not be hacked to death with gushing blood, but they would like to avoid a withered look. And lucky fans who have a one million chance of people meeting the cast certainly don't want these things either, though they'd probably be too excited to care. So with all this mind, here's what not to ask Dany, Jon Snow, the Starks or the rest of the gang. Who's going to die? Isaac Hempstead Wright | Jamie McCarthy/WireImage Asked directly what question he never wants to hear again, Isaac Hempstead Wright (Bran Stark) fired an answer before the reporter even finished the question. Are you the king of the night? he said, with audible exasperation in his voice. Liam Cunningham (Ser Davos Seaworth) ever wants to hear You can tell us something about the new season of Game of Thrones? Silly reporters. Haven't you ever heard of non-disclosure agreements? Fortunately for Cunningham, he won't have to hear that question again unless he's on the proposed prequel series. What can we expect for Ser Jorah this season? said the actor who plays him. Everyone wants to know what we stole from the set, said Joe Dempsie, who plays Gendry Baratheon. Maisie Williams (Arya Stark) knows people are curious, but she never wants to hear how it feels? Again. I think it's understandable, (but) It's obviously very horrible and sad, she said. Your on-screen sister and best friend Sophie Turner is tired of hearing what's your emotional arc? which is probably a ploy to get Turner and others to tell secrets. Again, NDA. Kit Harington is not a fan of critics Kit Harington was not among the cast members mentioned earlier in a recent junket, but he has made feelings about critics quite clear in the past, particularly in a direct interview with Esquire. He was unpretentious when the show started. He said: To me, looking back, when I read the pilot in 2009, I remember thinking: What is this s\*\*\*crock? I don't understand that. I'm going to have to read this again. And I read it again. And I'm like, I still don't understand this s\*\*\*at all. I think it's kind of weird, but it's HBO and it's okay, let's do it. And if people end up being disappointed with the ending, Harington doesn't care about that either. People may be entitled to their opinions, but in their mind, he, the other actors, and the creators were there day after day, and they to themselves more than anyone else. Harsh words from a favorite fan who actually died once. What questions do Game of Thrones fans have now? Of course, with each new episode of the show comes a new round of questions. And apparently, one of those questions will be What in the world was going on? This is not necessarily because the action was confusing. According to technology website CNET, parts of the battle were so dark that they were impossible to follow. And he wasn't just the author of the report. He cited several uses of Twitter that reported that they could not see anything. And it looks like Maisie Williams will have to endure repeated questioning again. One week, it was her sex scene. More recently, it is your decisive action in battle. So apparently someone somewhere could see him. Just don't ask the cast if they could.
